Fall Planting Season of 1941

How Will You Meet The Rising Food Costs?

Dear Garden and Farm Friend:

Last January I said to you "these be troublous times". I repeat it. They are not only "troublous", but they are getting more "troublous" day by day. Don't think that because all the bombing and shooting is still on the other side of the oceans that you and I and all the rest of us are not being hit. Not by bombs and bullets but by the rising cost of food.

Recent figures from Government sources show a rise of between 13 and 14 per cent in the cost of food items during the past few months, food items used by the average family. This upping of food prices will continue. Prices of food items always rise in war times and we are in war now except the shooting stage and that is liable to come any time.

Growing out of the drafting of our young men for army training an astounding fact has developed. Medical examinations show that one-half or more of the young men are unfit for army service and a large part of these rejections come from the effects of malnutrition. To put it in plainer words, the result of a lack of proper food, both variety and quantity, is responsible.

What is worse is that there are nearly as many white boys and young men turned down for these causes as negroes. It's a lack of a proper variety of food and the greatest lack is vegetable food that could easily be grown in abundance the year round on any Southern farm or in any Southern home back yard.

Through the years I have kept repeating that a large home garden, planted and kept replanted through the year can be made the most valuable piece of ground on the farm, both in money saving and health saving. On 90 per cent of our farms, the garden is the most neglected, the least made full use of, of all the acres. The larger and better tended the home garden, the smaller the store, drug and doctor's bill and an improved condition of health of the whole family that will surprise you.

Very truly yours,

H. G. Hastings President

25 Red Valentine

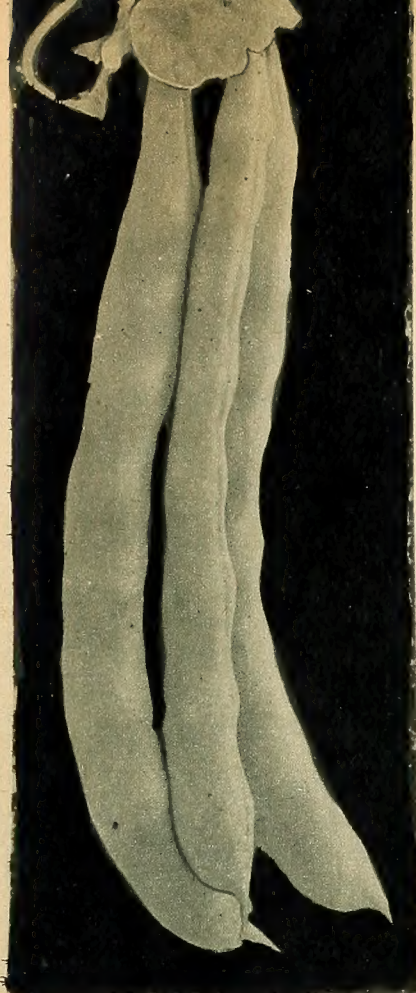

Winners in Hastings' 1941 Grand Prize Contest

We know you are interested in the winners of the cash prizes in our 1941 Grand Prize Contest. The following were selected by the judges as their choices:

Georgia: Mr. Hubert M. Ponder, Ashburn, Ga., \$100.00 cash.
 South Carolina: Miss Lettie Taylor, Lamar, S. C., \$100.00 cash.
 North Carolina: Mr. H. L. Arey, Salisbury, N. C., \$100.00 cash.
 Tennessee: Mrs. E. C. White, Whitesburg, Tenn., \$100.00 cash.
 Florida: Mr. H. F. Schollian, Chattahoochee, Fla., \$100.00 cash.
 Alabama: Mrs. John J. Nall, Dozier, Ala., \$100.00 cash.
 Mississippi: Mr. A. V. Beard, Hamilton, Miss., \$100.00 cash.
 Louisiana: Mrs. Paul A. Stagg, Jr., Longville, La., \$100.00 cash.
 Texas: Mr. Frank P. Redd, Wells, Texas, \$100.00 cash.
 Other States, etc.: Mr. J. H. Stroud, McGehee, Ark., \$100.00 cash.
 Grand Prize: Mrs. Irby Reddock, Luverne, Ala., \$1,000.00 cash.

We are very happy to announce these awards and to say further that we appreciate each and every one of the tens of thousands of entries. So many entries made the judging quite difficult because EVERY ENTRY WAS CONSIDERED. Our regret is that a prize could not be awarded to everyone.

H. G. HASTINGS CO.

26 McCaslan Pole Bean

Yellow Wax Pod Bush Beans for Fall Planting

32 IMPROVED PROLIFIC BLACK WAX

Hastings' Best 4 Fall Bean Collection 30c

For customers with small gardens, a leading variety of each type—¼ Lb. each of Hastings' Stringless Greenpod, Sure Crop Stringless Wax, Henderson Bush Lima and McCaslan Pole Beans. Henderson and McCaslan make white dry shell beans, too. These 4 for 30c. Postpaid to you.

Bush Limas for Delicious Fall Butter Beans

17 JACKSON WONDER BUTTER BEAN
65 days. The Calico bean, noted for rich flavor and earliness. Drought resister and sure cropper. Pods flat, 3x¾ in., with 3 to 4 small flat mottled seeds. ¼ Lb., 10c. ½ Lb., 20c. Lb., 30c. 2 Lbs., 55c. 5 Lbs., \$1.15. 10 Lbs., \$2.10. Postpaid.

7 HENDERSON BUSH LIMA (Butter)

68 days. Most popular butter bean. Prolific small bush with 3x¾ in. flat pods containing 3 to 4 small, flat, white seeds. For all purposes. ¼ Lb., 10c. ½ Lb., 20c. Lb., 30c. 2 Lbs., 55c. 5 Lbs., \$1.15. 10 Lbs., \$2.10.

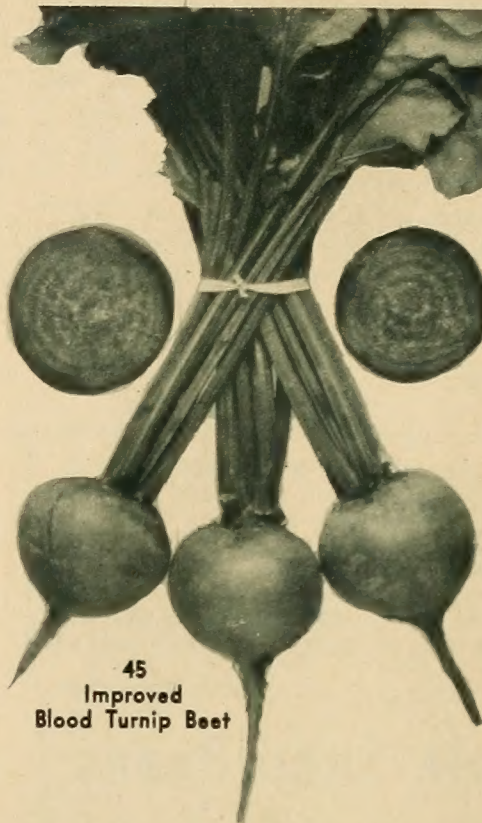

Red Beets Surely Brighten Southern Winter Appetites

Fresh Beets Contain Vitamin B1

CULTURE—Oz. plants 50-ft. row; use 6-8 Lbs. per acre. Ready to use in 8-10 weeks. Sow July to September 15 in middle South; September to January in Florida and along Gulf Coast.

45 HASTINGS' IMPROVED BLOOD TURNIP BEET (Best of All)

Detroit Dark Red. 56 days. Hastings-Ferry American introduction and by far the most important beet. Outstanding for all purposes; main-crop, globular, smooth, uniform, deep ox-blood red with indistinct zones. Holds quality and tenderness until mature. The main-crop beet of America; most satisfactory. Pkt., 10c. Oz., 15c. 1/4 Lb., 50c. Lb., \$1.50. Postpaid. Write for larger quantity prices.

45 Improved Blood Turnip Beet

43 SWISS CHARD

45 days. Lucullus or Sea Kale Beet. Grown for its leaves for greens. Better flavor than spinach or turnip greens. Midribs used like asparagus. Large leaves grow erect and as outer leaves are cut, more grow from center. For home or market. Packet, 10c. Oz., 15c. 1/4 Lb., 40c. Lb., \$1.25.

46 EARLY BLOOD TURNIP

60 days. For home and market. Top-shaped roots of dark red, zoned lighter. Tops medium and somewhat coarse. Pkt., 10c. Oz., 15c. 1/4 Lb., 40c. Lb., \$1.25.

49 LONG SMOOTH BLOOD

80-90 days. Favorite for winter storage. Roots 10-15 in. long by 3 in. across; purplish red. Resists heat and drought, excellent keeper and good table beet. Pkt., 10c. Oz., 15c. 1/4 Lb., 40c. Lb., \$1.25.

48 Asgrow Wonder

 All-America. Gold Medal, 1934. 50 days. Finest extra early beet for home or market. Unsurpassed for color; large, semi-flat; 15 in. tops for good bunching. Smooth, clean skin, small tap root and exceptionally uniform. Best Early Wonder type beet, of good flavor, fine grained and very dark interior color. Best early. Pkt., 10c. Oz., 15c. 1/4 Lb., 50c. Lb., \$1.50.

48 Asgrow Wonder Beet

50 Perfected Detroit

 All-America Award of Merit, 1934. 56 days. Similar to Hastings' Improved Blood Turnip, with rich blood-red meat all the way through. Without lighter colored zones inside, its color is superior, making this the best main-crop beet in existence. For home gardens, truckers, shippers and canning. The one best variety for you to plant. Packet, 10c. Oz., 15c. 1/4 Lb., 50c. Lb., \$1.50. Postpaid.

47 EARLY WONDER

51 days. For home, trucking and shipping. Semi-globular, blood-red with lighter zones. Tender, good buncher. Pkt., 10c. Oz., 15c. 1/4 Lb., 40c. Lb., \$1.25.

42 CROSBY EARLY EGYPTIAN

52 days. Early favorite for home and market. Flat-globe shape, purplish red, with medium tops; tender. Pkt., 10c. Oz., 15c. 1/4 Lb., 40c. Lb., \$1.25.

Mangel, and Half Sugar Beets

41 JUMBO LONG RED MANGEL

Largest and heaviest yielder in the South. Roots usually 18-24 in. long by 5 in. across. Light red skin and rosy-white flesh. For stock feed. Oz., 10c. 1/4 Lb., 30c. Lb., 85c.

51 WHITE FRENCH HALF-SUGAR

Higher sugar content for fattening cattle and for rich milk. Large oval roots with smooth, clean skin. As easy to grow as garden beets. Mangels need rich deep soil. Oz., 10c. 1/4 Lb., 30c. Lb., 85c. Postpaid.

Buy FRESH Seeds— Order DIRECT From Hastings'

For your Protection and for gardens of which you will be justly proud. Besides the All-America vegetable and flower trials on new varieties before they are ever offered for sale anywhere, Hastings' test grounds determine the finest and best adapted strains of the older varieties each year for the South. These finest of all seeds you get only direct from Hastings'. You can't expect to get them anywhere else, so send your order today and you know they are fresh as well as good.

Long Standing

CARROTS

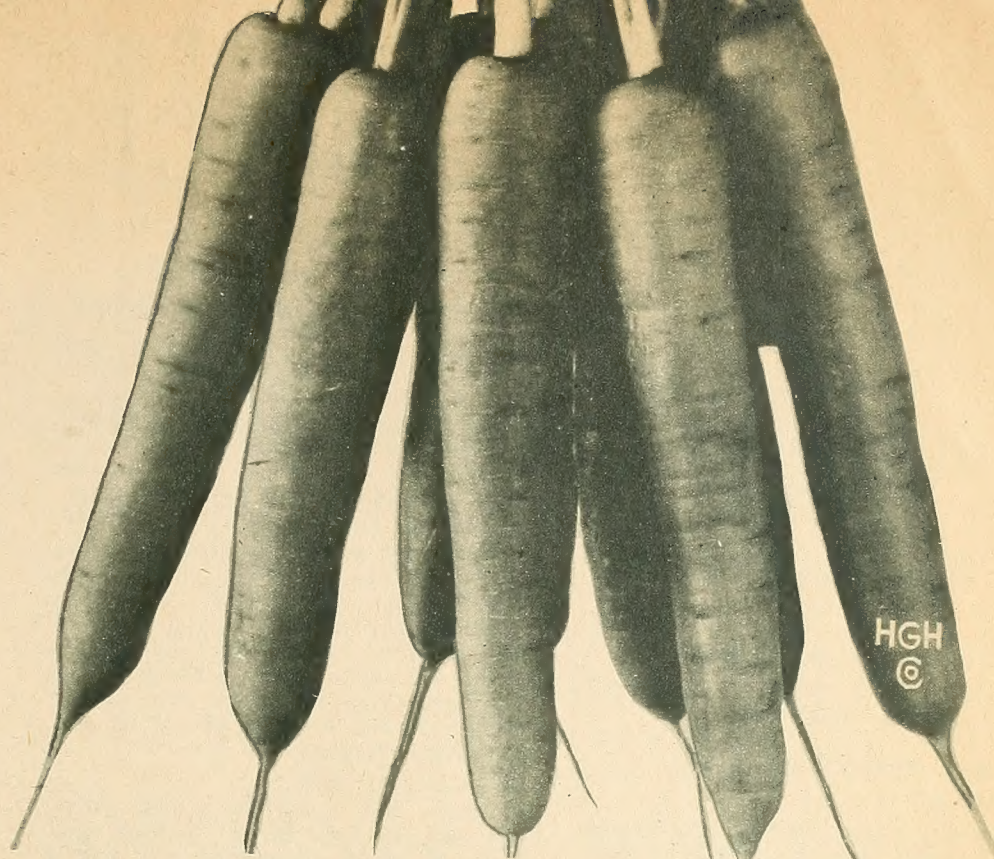

Rich in Vitamins A, B1

An Ideal Fall and Winter Vegetable

CULTURE—Sow shallowly in drills 18 in. apart, in rich, deeply worked soil. For fall carrots, plant Aug.-Sept., even to Dec., in extreme South. Thin to 3 in. apart and cultivate frequently. Oz. plants 100 ft. of row; use 3-5 Lbs. per acre. Serve cooked or raw.

65 CHANTENAY

70 days. Same half-long type as Red Cored Chantenay. Improved, excellent all-purpose variety for home, market and canning. A good cropper of smooth, tapered, blunt-ended, deep-orange roots with indistinct core. Long the standard garden carrot. $5\frac{1}{2} \times 2\frac{1}{4}$ in. in size. Pkt., 10c. Oz., 20c. $\frac{1}{4}$ Lb., 70c. Lb., \$2.25. Postpaid.

64 Imperator Carrot

69 IMPROVED LONG ORANGE

88 days. Large, heavy cropping, for garden and stock use. Tapering roots, $1\frac{1}{2} \times 2\frac{1}{2}$ in., red-orange skin and flesh with lighter core. Pkt., 10c. Oz., 20c. $\frac{1}{4}$ Lb., 60c. Lb., \$1.75.

70 LARGE WHITE BELGIAN FOR STOCK FEED

90 days. Huge $12 \times 3\frac{1}{2}$ in. roots of creamy white flesh, green skin above ground and white beneath. Used entirely for stock feeding like Mangel Beets. Pkt., 5c. Oz., 10c. $\frac{1}{4}$ Lb., 30c. Lb., 85c.

68 DANVERS HALF LONG

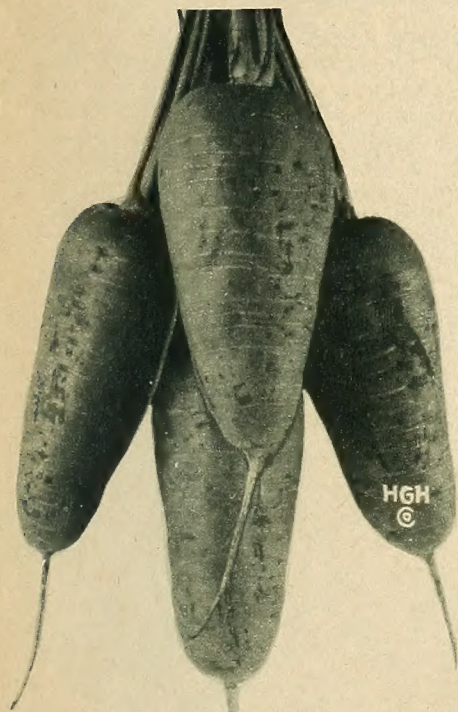

75 days. Our select strain for market and shipping as well as for home use. Roots are bright orange, tapered to a blunt end. Flesh is bright orange, tender and of good quality. This produces more weight per acre than other half-long kinds, is $7 \times 1\frac{3}{4}$ in., a popular market size, and is most widely used by commercial growers. Pkt., 10c. Oz., 20c. $\frac{1}{4}$ Lb., 70c. Lb., \$2.25.

66 EARLY OXHEART

72 days. The Guerande carrot, almost heart shaped, $4\frac{1}{2} \times 2\frac{1}{2}$ in. thick and blunt ended. Prolific and a good keeper; bright orange skin, deep orange flesh; small tops and easily harvested. For home use. Pkt., 10c. Oz., 20c. $\frac{1}{4}$ Lb., 60c. Lb., \$2.00.

71 Chantenay Red Cored Strain Carrot

70 days. Finest quality and color. Often called Coreless because the usual interior yellow ring has been bred out. A sweeter, richer flavor has been acquired. The superb deep reddish orange color throughout, extra quality, crispness and heavy yield combine to make this the best garden variety. 5 in. long, $2\frac{1}{4}$ in. wide at shoulder at maturity. Highly recommended. Pkt., 10c. Oz., 20c. $\frac{1}{4}$ Lb., 70c. Lb., \$2.25. Postpaid.

71 Red Cored Chantenay Carrot

CELERY

For Home and Market

In Florida, Southwest Texas and along the Gulf Coast, sow in Aug.-Sept. in shaded beds. Transplant to rich, fertilized, moist soil when 6 in. high. Oz. sows 400 ft. or makes 5,000 plants.

78 EASY BLANCHING CELERY

Sanford Superb. 125 days. Excellent for home and truck gardens. Vigorous, compact, blanches white and is a good keeper. Stalks a little taller than Self-Blanching, thick, solid and of good flavor. More easily grown also. Pkt., 10c. Oz., 30c. $\frac{1}{4}$ Lb., 90c. Lb., \$3.00.

77 GOLDEN SELF-BLANCHING CELERY

118 days. Best early for market gardeners and shippers. Medium size, compact, stocky, yellowish foliage, blanching with little attention. Stringless, crisp, tender, nutty flavor. Pkt., 10c. $\frac{1}{2}$ Oz., 30c. Oz., 50c. $\frac{1}{4}$ Lb., \$1.50. Lb., \$5.00.

76 WHITE PLUME

CELERY—112 days.

79 GIANT PASCAL

CELERY—135 days.

Favorite extra early and late varieties. Each: Pkt., 5c. Oz. 25c. $\frac{1}{4}$ Lb., 75c. Lb., \$2.50.

75 CELERIAC

TURNIP ROOTED CELERY.

Plants are dark green with hollow stalks. Roots are globular, 2-3 in. across, and used for soups, stews and salads. Requires no hilling up and may be stored like beets. Pkt., 10c. Oz., 30c. $\frac{1}{4}$ Lb., 90c. Lb., \$3.00.

77 Golden Self-Blanching Celery

106 Early Jersey Wakefield

Order Cabbage seed immediately!

Seed supply is very inadequate for present needs. Send your order today.

106 EARLY JERSEY WAKEFIELD
(Very Hardy)

62 days from plants. Hardy, resisting cold and unfavorable conditions. Plants compact with few outer leaves of smooth, thick, dark green texture. Heads medium size, solid, uniformly sharp pointed and the first early cabbage. Allows close setting in rows, more heads per acre and very largely planted by home gardeners, truckers and shippers. Super strain for finest crops. Pkt., 10c. Oz., 25c. 1/4 Lb., 75c. Lb., \$2.25. Postpaid.

118 COPENHAGEN MARKET—
THE MARKET FAVORITE

66 days from plants. Earliest round-headed cabbage, surer, better strain and much better heads than any we have found. Our Copenhagen has good sized heads, solid, few outer leaves, nearly round and surely the best of its type for home and market. Growth is vigorous, compact with short stems; leaves smooth, thick and rather light green. Pkt., 10c. Oz., 30c. 1/4 Lb., \$1.00. Lb., \$3.00. Postpaid.

119 MARION MARKET (Yellows Resistant)

66-70 days. Yellows Resistant Copenhagen Market. A highly bred strain of this popular market variety. Quite resistant. Pkt., 10c. Oz., 30c. 1/4 Lb., \$1.00. Lb., \$3.00. Postpaid.

CABBAGE

With Health Vitamins A, B1
Hastings' Super Strains
for Heaviest Southern Crops

CULTURE—Sow seed in drills 6 in. apart across finely prepared, slightly raised, seed bed, 5 seeds per inch. Cover 1/4-1/2 in. Keep bed moist. Transplant when 4th pair of leaves form. Oz. of seed makes 1,000 strong plants; use 1/4-1/2 Lb. to set an acre.

105 HASTINGS' HARDY LONG ISLAND WAKEFIELD (IMPROVED CHARLESTON)
71 days from plants. Our largest, earliest and surest heading strain of Charleston Wakefield for home, market or shipping. Heads are blunt-pointed, wide at base, with large spreading, smooth, thick outer leaves. It's the best early pointed cabbage and we have long been famous for our superior seed strain. Pkt., 10c. Oz., 25c. 1/4 Lb., 75c. Lb., \$2.25. Postpaid.

121 ALL-HEAD EARLY
77 days. Firm, solid, flat-headed variety with very few outer leaves. Medium sized, heads of grand appearance with half a chance. Popular with Southern market gardeners, shippers and best early drumhead. Pkt., 10c. Oz., 25c. 1/4 Lb., 75c. Lb., \$2.25.

A Garden Full of Cabbage

For Only 25c (40c value)

Our big 4 finest varieties. Popular favorites for an all-season supply—early, medium and late maturing. And seed left over from fall planting will be fine for spring planting.

Copenhagen Market, Hastings' Famous Long Island Wakefield, Stein's Early Dwarf Flat Dutch and Hastings' Centennial Late Flat Dutch. The best varieties and our super-strains for Southern growing. One packet each of these big 4—25c postpaid. Order yours now!

Market Gardeners Attention!

Supplies of Cabbage and other garden seed are, for the most part, very short with increasing demand for shipment to Britain and our South American neighbors. Write us promptly for lowest prices on your requirements while stocks are still available. Our sincere advice is not to delay!

105 Long Island Wakefield

104 EARLY WINNIGSTADT

77 days. Medium early, sharply pointed, very hard headed, good keeping variety. Good for all purposes. Short, thick, blue-green leaves resist cold, wet and insects. Medium sized heads, stands shipping and its splendid quality makes it a home garden favorite. This variety is becoming more and more popular and it is liked for the distinct twist of the leaves at point of head. Pkt., 10c. Oz., 25c. 1/4 Lb., 75c. Lb., \$2.25.

100 ALL SEASONS

85 days. Reliable header, resisting heat and drought well in summer planting. Heads are nearly round, solid and of fine quality. Pkt., 10c. Oz., 25c. 1/4 Lb., 75c. Lb., \$2.25.

103 PERFECTION SAVOY (Very Hardy)

87 days. Best savoy-leaved variety and we might say the best and tenderest of all cabbages. It only heads well in cool weather, so is a dandy garden variety to plant in late summer and fall for heading in late fall and winter. Frost even improves quality and flavor. Beautifully crimped and savoyed and should be planted generally in the South. Pkt., 10c. Oz., 40c. 1/4 Lb., \$1.25. Lb., \$3.50. Postpaid.

125 STEIN'S EARLY FLAT DUTCH

90 days. The most popular main-crop market and shipping cabbage. Plants are medium, vigorous, with large, solid, flat heads, about 6 in. deep and 11 in. across, weighing 11 pounds. It's a good midseason cabbage and dependable. It's also good for home garden use. Pkt., 10c. Oz., 25c. 1/4 Lb., 75c. Lb., \$2.25. Postpaid.

118 Copenhagen Market

121 All Head Cabbage

Cabbage Is Cheap from Your Garden

101 HASTINGS' SURE CROP

80 days. Midseason variety of excellent quality for home and market. Firm, solid, uniformly flat-round shape, of medium size. Dark green color holds up after being cut. Good late summer variety to plant. Pkt., 10c. Oz., 25c. 1/4 Lb., 75c. Lb., \$2.25. Postpaid.

117 BLOOD RED ERFURT

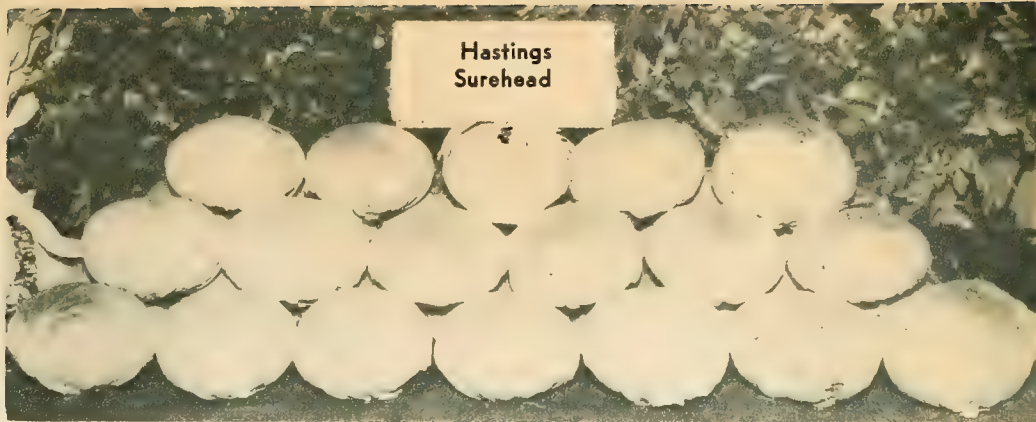

90 days. Best red cabbage for the South. Good medium size and sure heading. Very largely used for pickling and because of its rich color is attractive in cole slaw. Fancy grocers pay a premium for it in the cities. Its flavor-keeping quality and rich carmine red color make it popular for home and market. Pkt., 10c. Oz., 35c. 1/4 Lb., \$1.00. Lb., \$3.50. Postpaid.

120 HASTINGS' GENUINE SUREHEAD

95 days. For many years the most widely planted Southern variety. A real main-crop cabbage of the late flat Dutch type, dependable header on medium long stem. Upright growth, not many outside leaves and 8-9 pound heads are large, hard, round, somewhat flattened. Especially popular for late summer and fall plantings along the Gulf Coast and in Florida. Pkt., 10c. Oz., 25c. 1/4 Lb., 75c. Lb., \$2.25. Postpaid.

111 DANISH BALL HEAD— SUPERB FOR MARKETS

Hollander. 105 days. Generally grown and finest type of late cabbage. Grand keeper and recommended for kraut, storage and shipping. Rather large plants, strong, with short stem. Heads are deep round, very hard and compact. Tender, crisp, good flavor, ideal for high quality home use. Danish Ball Head is improved and very greatly in demand. Pkt., 10c. Oz., 30c. 1/4 Lb., \$1.00. Lb., \$3.00. Postpaid.

120 Hastings' Genuine Surehead Cabbage

110 HASTINGS' CENTENNIAL LATE FLAT DUTCH

105 days. Biggest of all and especially adapted for fall planting in the South. Excellent for home, market and shipping. Heads are extremely large, averaging 10-12 in. across and weighing 10-12 Lbs. They are 6 1/2-7 in. deep and of highest quality. The only objection is that on very rich land it grows too big. Our Centennial is the variety which takes so many prizes for the largest, most perfect heads at the fairs. Its heat and cold resistance and vigorous growth make it a success year after year. Pkt., 10c. Oz., 25c. 1/4 Lb., 75c. Lb., \$2.25. Postpaid.

Chinese Cabbage Is Deliciously Different!

126 CHIHILI

75 days from seed. Leading and most satisfactory variety for Southern planting. The large outside leaves are yellowish, inner leaves rounded like Cos Lettuce. The heart is white, tender, sweet and delicate in taste. Young leaves are also used for salad. It's very hardy and keeps splendidly. Plant outdoors as for fall turnips, into the fall in the lower South. Thin to 12-16 in. apart in rows. Leaves may be tied up to blanch the inside. Pkt., 10c. Oz., 25c. 1/4 Lb., 80c. Lb., \$2.50. Postpaid.

CABBAGE SEED STILL VERY SCARCE!

As so much cabbage seed is grown in Holland and Denmark and from the fact that shipments cannot be made now to the United States, there has developed a gravely serious situation in the seed trade for supplies for customer requirements this fall and next spring of this important item. American produced seed are short in supply as well, so there just isn't any normal supply to be had and when present stocks are sold there will not be more until after the 1942 Harvest.

We do not wish to be alarmists but we do want our customers to know the facts and under the circumstances we certainly do advise that you buy your cabbage seed needs at once so as not to be disappointed. We have moderate stocks available and can promise only that early orders will be filled. We reserve the right to change these prices at any time but will do our best to provide your needs as long as possible at these low figures.

Frost-Proof Cabbage Plants for Winter

Hastings' almost freeze-proof plants are well known throughout the South. We expect to have these plants in any quantity desired, beginning about December 1st. We will have the Improved Charleston Wakefield, Copenhagen Market, and Early Flat Dutch cabbage plants, as well as our genuine Bermuda onion plants. You may send your order in now for earliest delivery. Shipments made after about December 1st.

110 Centennial Late Flat Dutch

Plant the Best Winter COLLARD SEED

Contain Vitamins A, B1

Old-time Southern favorite for boiling. Sow seed until September 15th. Transplant 2 ft. apart in rows. Cultivate like cabbage. Oz. plants 200 feet.

135 SOUTHERN OR GEORGIA

The standby, enduring ordinary winters south of Atlanta. Hardier and easier to grow than cabbage. Pkt., 5c. Oz., 10c. 1/4 Lb., 20c. Lb., 60c. 5 Lbs., \$2.50.

136 HASTINGS' GEORGIA CABBAGE-COLLARD (NEWEST IMPROVED STRAIN)

Hastings' introduction of Georgia origin. Loose heading but many have real heads to use through the winter. Much superior flavor for boiling or in cole slaw. Pkt., 10c. Oz., 15c. 1/4 Lb., 35c. Lb., \$1.00. Postpaid.

136 Georgia
Cabbage Collard

BROCCOLI

57 Green
Sprouting Broccoli

57 GREEN SPROUTING BROCCOLI

Culture as for Cabbage. All-season Italian variety. Head is a compact cluster of bluish-green flower buds, used unblanched. Central head is followed by branches of smaller heads. Cauliflower quality. Pkt., 10c. Oz., 25c. 1/4 Lb., 75c. Lb., \$2.50. Postpaid.

BRUSSELS SPROUTS— 59 IMPROVED DWARF

125 days from seed. 18-30 in. tall, producing compact 1-2 in. sprouts along the stem. They look like baby cabbages but of superior quality and flavor. Sow July to September and transplant like cabbage. Packet makes plants for 100-ft. row. Oz. for 1/4 acre. Pkt., 10c. Oz., 25c. 1/4 Lb., 90c. Lb., \$3.00. Postpaid.

Try CAULIFLOWER This Fall

131 CHERVIL

50 days. Finely curled double, early, fragrant flavoring and garnishing for soups, meats and vegetables. Broadcast Oct.-Nov. Pkt., 10c. Oz., 25c. 1/4 Lb., 75c. Lb., \$2.50.

194 CORN SALAD

FETTICUS. Large Green Cabbaging; for winter or spring salad or garnishing. Oz. plants 200 ft. Packet, 10c. Oz., 15c. 1/4 Lb., 50c. Lb., \$1.50. Postpaid.

130 CHIVES

Onion-like perennial with more delicate flavor. Tops, of cut-and-come-again type, used for flavoring and garnishing soups, stews, eggs, cheese, etc. Pkt., 10c. Oz., 40c. 1/4 Lb., \$1.25. Postpaid.

132 CURLED PEPPER GRASS. Quick growing; tastes like Water Cress. Make frequent plantings. Packet, 5c. Oz., 15c. 1/4 Lb., 40c. Lb., \$1.25. Postpaid.

133 WATER CRESS. Refreshing leaves for salads and garnishing. Easily grown in shallow fresh water. Pkt., 10c. Oz., 70c. 1/4 Lb., \$2.25. Lb., \$7.50. Postpaid.

Contains Vitamins A, B1.

Oz. makes about 3,000 good plants. Set plants 18 in. apart in rows. Start seed in bed as for cabbage to transplant. Sow seed September to November along Gulf Coast and Florida, to head in cool weather.

85 HASTINGS' GILT EDGE (Dry Weather) 55 days from plants. Largest, most perfect, surest heading early cauliflower. Finest quality of all and stands longer than others. This is the best and most dependable strain to plant. Pkt. 25c. 1/4 Oz., \$1.00. 1/2 Oz., \$1.75. Oz., \$3.00.

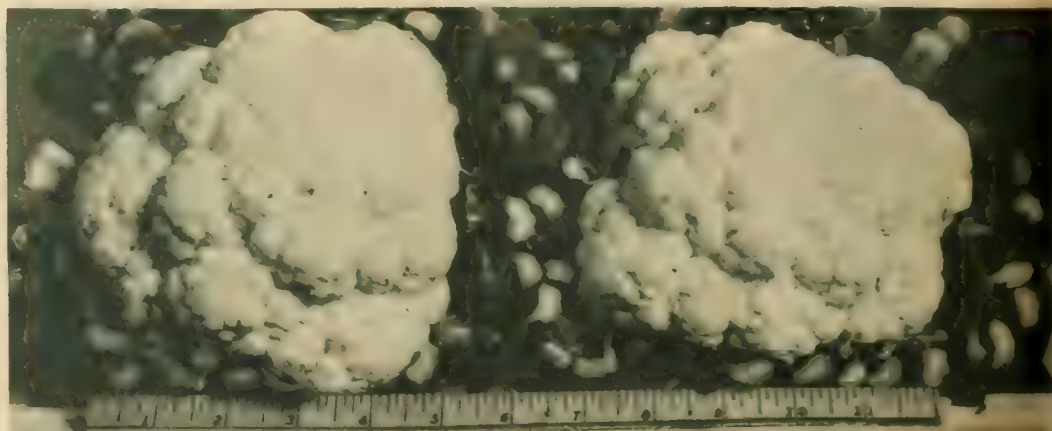

86 EARLY SNOWBALL

55 days. Similar to Gilt Edge and a general favorite. Pkt., 25c. 1/4 Oz., \$1.00. 1/2 Oz., \$1.75. Oz., \$3.00.

87 PARIS WHITE. Medium size, loose heads, for family gardens. Pkt., 10c. 1/2 Oz., 50c. Oz., 90c. 1/4 Lb., \$2.25.

89 LARGE LATE ALGIERS. Large, late, loose heads; heat-resisting. Pkt., 10c. 1/2 Oz., 40c. Oz., 75c. 1/4 Lb., \$2.00.

85 Gilt Edge Cauliflower

PLANT HARDY KALE *for this Winter*

Kale Contains Vitamins A and B1.

Leaves are boiled for greens, similarly to turnips, mustard and spinach; also used for garnishing. Broadcast in fall or spring, or can plant in rows. For large plants, thin to 2 ft. apart in rows. Flavor and quality are improved by frosts. Oz. plants 200 ft. of row; use 5 Lbs. per acre in rows or for transplanting.

HEALTH INSURANCE FROM YOUR GARDEN

● Fall Garden Meals Build Winter Resistance to colds. We are very lucky in being able to have such good fall gardens with so many different vitamin fresh vegetables to grow. They give us strong bodies to help in the fight against colds, flu and pneumonia that threaten us each winter. High Resistance is our best insurance against doctor and medicine bills. Plan your fall garden now with Hastings' pretested, dated and acclimated seed—the best for Southern Gardens.

200 DWARF GREEN CURLED SCOTCH KALE

55 days. Wide spreading, finely curled, rich green, plummy leaves. Quite hardy, ornamental, handsome, uniform strain for greens and garnishing. Favorite dwarf variety everywhere. Pkt., 5c. Oz., 10c. 1/4 Lb., 40c. Lb., \$1.25. 5 Lbs., \$5.00. Postpaid.

199 BLUE SIBERIAN KALE OR SPROUTS

65 days. Very spreading, vigorous large plants with large smooth leaves at center and frilled edges. Deep bluish green in color. Very hardy and also improved in quality by light frosts. Pkt., 5c. Oz., 10c. 1/4 Lb., 30c. Lb., \$1.00. 5 Lbs., \$4.00. Postpaid.

KOHL RABI CONTAINS VITAMIN B1.

202 EARLY WHITE VIENNA

55 days from seed. Of the Cabbage family, used for its edible 2 in. bulbs just above ground, before quite mature. Cabbage-turnip flavor. Early forcing type for home or market; greenish white skin, white flesh, tender and crisp. May be transplanted or thinned to 5 in. apart in rows. Pkt., 10c. Oz., 35c. 1/4 Lb., \$1.25.

LEEK

203 LARGE CARENTAN

Onion-like plant with overlapping leaves, forming a thick neck to use in soups and stews. Cultivate as for onions. Grand for fall use. Ounce plants 200 ft. row.

Pkt., 10c. Oz., 30c. 1/4 Lb., \$1.00. Lb., \$3.50.

Hastings' Southern Eggplant

Eggplant Contains Vitamins A and B1.

Profitable for late fall and winter shipment from the far South. Sow in beds for transplanting July-Sept. for Oct. to Jan. harvesting. Packet makes plants for 100 ft. row; use 1/2 Lb. for plants per acre.

190 HASTINGS' IMPROVED PURPLE THORNLESS EGGPLANT

83 days from plants. Fruits larger than others, broad oval in shape and very healthy. Best variety known for home and market use. Pkt., 10c. 1/2 Oz., 20c. Oz., 35c. 1/4 Lb., \$1.25. Lb., \$4.00.

190 Improved Thornless Eggplant

1870 NEW HAMPSHIRE HYBRID EGGPLANT

70 days from plants. Supurb new uniform early All-America winner. Try it for earliest markets and for home garden. Pkt., 10c. 1/2 Oz., 30c. Oz., 50c. 1/4 Lb., \$1.50. Lb., \$5.00.

188 FLORIDA SPECIAL (HIGH BUSH) EGGPLANT

78 days from plants. Earliest, high-bush type, holding eggs off the ground. Pkt., 10c. 1/2 Oz., 20c. Oz., 35c. 1/4 Lb., \$1.25. Lb., \$4.00.

191 BLACK BEAUTY EGGPLANT

81 days. Early favorite for home and truckers. Produces 4-5 egg-shaped fruits of dark purple, holding well after picking. Medium sized plants. Pkt., 10c. 1/2 Oz., 20c. Oz., 35c. 1/4 Lb., \$1.25. Lb., \$4.00.

200 Dwarf Green Curled Kale

Endive for Salad

Grand fall and winter salad, flavoring and garnishing plant. Sow July-Aug. for fall use. Oz. plants 100 ft.; use 5 Lbs. per acre.

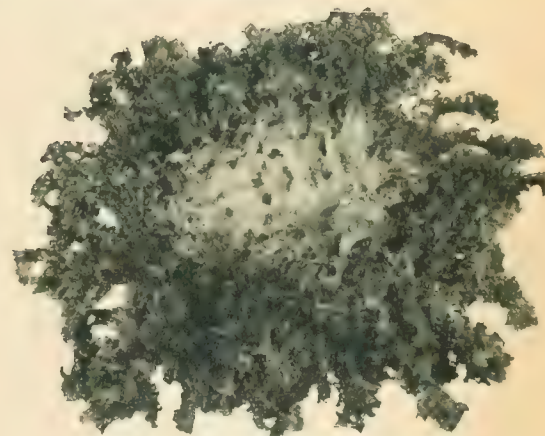

193 EARLY GREEN CURLED ENDIVE

95 days. Best home and market variety with deeply toothed or divided bright green leaves and white, thick midribs. 16-18 in. across, tufty, full-centered plants may be tied up to blanch a beautiful creamy white. Fancy salad plant, easily grown. Pkt., 10c. Oz., 15c. 1/4 Lb., 40c. Lb., \$1.25. Postpaid.

192 ESCAROLE

BROAD LEAVED BATAVIAN

90 days. Wide, twisted or waved bright green leaves with thick midribs, forming a compact heart which blanches to creamy white. 16 in. across, crisp, tender and most extensively used endive for home and market. Pkt., 10c. Oz., 15c. 1/4 Lb., 35c. Lb., \$1.00. Postpaid.

193 Early Green Curled Endive

Fall LETTUCE... Fresh Crisp Salads

Lettuce Contains Vitamins A and B1.

Crisp and inviting, lettuce should be plentiful in every fall and spring garden. Use young plants in thinning, leaving strong plants every 10 in. to head. Use rich soil, plenty of moisture, cultivate often and nitrate of soda is beneficial as a side dressing for fertilization towards good head lettuce. Oz. plants 200 ft. of row; use 4 Lbs. per acre or 1 Lb. per acre for transplanting. Sow seed to head in cool weather.

216 Hastings' Genuine Iceberg Lettuce

82 days to heading. Crisp Leaf Type. For forcing and home garden use. Beautiful and useful crisp and tender, growing a long time before running to seed. Hard conical heads of medium size, tightly fold and blanch to an attractive white. Outer leaves are crinkled, light green tinged bronze, growing closely about the head. This is the lettuce to plant in your home garden. Hastings' Genuine Iceberg. Pkt., 10c. Oz., 15c. 1/4 Lb., 40c. Lb., \$1.25. Postpaid.

209 MIGNONETTE—Baby Head Lettuce

65 days. Small Crisp Leaf Type making good heads. Pkt., 10c. Oz., 25c. 1/4 Lb., 60c. Lb., \$2.00. Postpaid.

211 Hastings' White Drumhead (N. Y. No. 12)

75 days. Crisp Leaf. New York No. 12 strain. Ideal for market and fine for home gardens. Called Iceberg in the stores. Our newest superb strain stands heat better, is earlier, with fewer outer leaves, lighter green and more attractive than any other strain. It's always large, extra crisp, tender and free from any bitter taste. The most popular lettuce grown in America. Pkt., 10c. Oz., 20c. 1/4 Lb., 50c. Lb., \$1.50. Postpaid.

215 IMPERIAL F—Disease and Weather Resistant

80 days. Crisp Leaf Type. Superb shipping strain of Hastings' Drumhead type, resistant to brown blight and somewhat resistant to mildew. It stands variable and hot weather better and heads are large, solid, attractive, with few outer leaves. Sold as Iceberg. Pkt., 10c. Oz., 20c. 1/4 Lb., 50c. Lb., \$1.50. Postpaid.

212 IMPERIAL 847—The Great New Southern Market Lettuce

84 days. Superb new heat and drought and also disease resisting market winner, increasingly grown in the South. We recommend this strain very highly for home or market. Pkt., 10c. Oz., 25c. 1/4 Lb., 60c. Lb., \$2.00. Postpaid.

220 CALIFORNIA CREAM BUTTER

74 days. Butter Head Type. Heads large, solid, sweet and juicy tender. Inside blanches creamy yellow and our pure strain is distinguished by the small bronzy spots on outer leaves. Pkt., 10c. Oz., 15c. 1/4 Lb., 40c. Lb., \$1.25.

210 Hastings' Big Boston—The Hard Header

75 days. Butter Head Type. The finest strain of Big Boston so far created. The standard market garden and shipping variety of butter head lettuce and extensively grown in home gardens. Extra large, round, firm, attractive heads grow so solid that they have to be cut open to allow seed stalks to grow in our seed crops. Pkt., 10c. Oz., 15c. 1/4 Lb., 30c. Lb., \$1.00. Postpaid.

222 IMPROVED HANSON. 80 days. Crisp Leaf Type.

213 BROWN DUTCH. 75 days. Butter Head Type.

214 GRAND RAPIDS. Loose Leaf Type.

223 BLACK SEEDED SIMPSON. Loose Leaf Type.

Prices above four varieties—each: Pkt., 5c. Oz., 15c. 1/4 Lb., 30c. Lb., \$1.00.

217 WHITE PARIS COS

Romaine or Celery Lettuce. Distinct type with thick leaves and brittle midribs. Very desirable in fall for forcing, truckers and home gardeners. Head compact, medium size, solid, loaf-shaped, with greenish white, blanched interior. Crisp, sweet, tender and of delicious flavor. Pkt., 10c. Oz., 15c. 1/4 Lb., 40c. Lb., \$1.25. Postpaid.

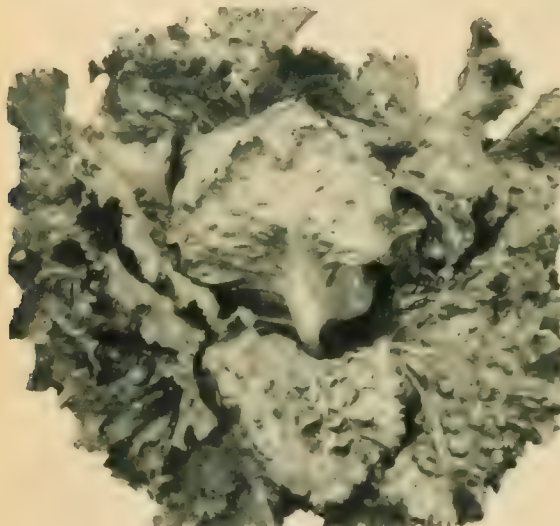

208 CHICKEN LETTUCE

For Poultry, Rabbits and Greens for Live Stock.

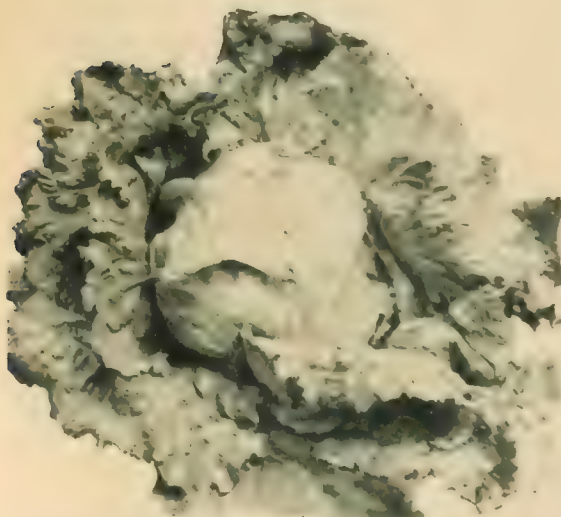

Pkt., 10c. Oz., 15c. 1/4 Lb., 30c. Lb., \$1.

PLANT HASTINGS' MUSTARD for Healthful Winter Greens

CULTURE. Sow Aug.-Nov. for finest fall and winter greens. Give clean culture; leaves may be used in 4-6 weeks and on through the winter. Ounce plants 200 ft. of row; use 4-5 Lbs. per acre in drills 18 in. apart. (Seed crops short).

275 TENDERGREEN

Mustard-Spinach. Fast growing; flavors of mustard and spinach. Resistant to heat and drought; wonderful greens plant for the South. Now a standard greens crop readily sold in most markets and more and more a favorite in home gardens where it is so easily grown. Pkt., 5c. Oz., 10c. 1/4 Lb., 25c. Lb., 75c. 5 Lbs., \$3.00. Postpaid.

Fresh Mustard Contains Vitamin A

278 Giant Southern Curled

Our best known and most popular mustard. Very fancy, with erect, plummy, large, bright green leaves, heavily fringed and curled at edges. Lightly pungent, crisp and tender. Attractive enough for your flower garden. Pkt., 5c. Oz., 10c. 1/4 Lb., 25c. Lb., 85c. 5 Lbs., \$3.00. Postpaid.

276 FLORIDA BROAD LEAF

Large, thick, bright green leaves of smooth appearance, toothed edges and almost white midribs. Fast growing, productive, longstanding. Pkt., 5c. Oz., 10c. 1/4 Lb., 25c. Lb., 85c. 5 Lbs., \$4.00. Postpaid.

277 CHINESE

Vigorous plant. Leaves large, rough, medium green, toothed edges, free from bitterness. Longer before seeding than others, a little slower in growing. Pkt., 5c. Oz., 10c. 1/4 Lb., 25c. Lb., 85c. 5 Lbs., \$4.00.

279 WHITE MUSTARD

The large yellow seeds only are used, quickly seeding. Pkt., 5c. Oz., 10c. 1/4 Lb., 25c. Lb., 85c. Postpaid.

ONIONS

for Winter Health

Onions Contain Health Vitamin B1

298 Riverside Sweet Spanish Onions

CULTURE. Plant seeds after soil cools in fall; cover $\frac{1}{4}$ in. and firm surface. Use fine, rich ground and keep growing steadily. Thin gradually to a stand; final thinning when 6-8 in. tall may be eaten as green onions. Cultivate shallowly each 7-10 days until tops begin to die. Then dig and store with tops on until ready to use or market. Ounce plants 200 ft. row. Use 3-4 Lbs per acre.

NOTE! For home gardens, Bermuda Onions are specially recommended because so easily grown and are the earliest, mildest, sweetest of onions.

289 Hastings' Crystal Wax White Bermuda—Mildest

90 days. This Hastings' introduction gave the world the most beautiful, clear waxy white skin and flesh, onion ever created. Except in color it is identical with Yellow Bermuda. Excellent early, flat onion for home gardens, market and shipment. Its attractiveness makes it sell on sight and at a premium over all others. Like our Yellow Bermuda, seed is still grown for us in the Canary Islands, superior to any seed grown. Pkt., 10c. Oz., 40c. $\frac{1}{4}$ Lb., \$1.25. Lb., \$4.00. Postpaid.

288 Hastings' Yellow Bermuda—Standard Fall Onion

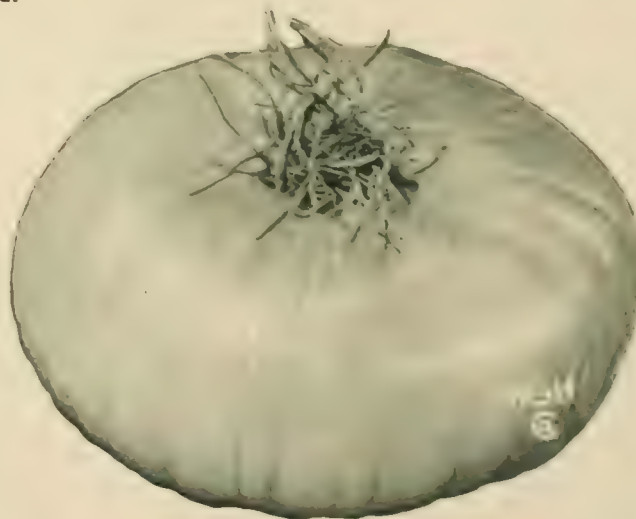

90 days. This is the variety which made the Bermuda onion history. Very early, medium size, flat shaped; light straw colored, thin, loose skin. Flesh is practically white, very sweet and mild. Recommended for home and early market use. It stands shipping but is not a long keeper. Plant for earliest, mildest, sweetest of onions. Sow seed in fall in lower South for winter onions as is done with the big commercial crops. Pkt., 10c. Oz., 40c. $\frac{1}{4}$ Lb., \$1.25. Lb., \$4.00. Postpaid.

Bermuda Onion

ONION SEED SUPPLIES

Two extremely short crop years together has caused a very acute situation in onion seed supplies. Prices in some sections have advanced double and triple. However, we have a limited stock on hand that we offer on this page at very low prices as long as supplies last. Rush your order to us promptly if at all interested in onion seed this season. These are facts.

298 Riverside Sweet Spanish

110 days. Similar to Prizetaker but larger. Globular with golden yellow skin, white flesh, of pleasing flavor and very mild. Prolific and increasingly popular for home and market demand. Pkt., 10c. Oz., 50c. $\frac{1}{4}$ Lb., \$1.50. Lb., \$5.00.

285 RED WETHERSFIELD

100 days. Grand keeper. Pkt., 10c. Oz., 30c. $\frac{1}{4}$ Lb., 90c. Lb., \$3.00.

294 Yellow Globe Danvers

112 days. Splendid cropper, Globular, medium sized, solid, rather mild bulbs. Stores and keeps well. Pkt., 10c. Oz., 30c. $\frac{1}{4}$ Lb., \$1.00. Lb., \$3.75.

292 HASTINGS' WHITE GLOBE

110 days. Best white globe onion. Pkt., 10c. Oz., 30c. $\frac{1}{4}$ Lb., \$1.00. Lb., \$3.50.

291 HASTINGS' RED GLOBE

112 days. Finest red globe onion. Pkt., 10c. Oz., 30c. $\frac{1}{4}$ Lb., \$1.00. Lb., \$3.50.

82 days. 5 ft., 3 in. pods, 6 round seeds. Commercial pea for dry use. ¼ Lb., 10c. ½ Lb., 20c. Lb., 30c. 2 Lbs., 55c. 5 Lbs., \$1.10. 10 Lbs., \$2.00. Postpaid.

319 LAXTON'S PROGRESS

62 days. 1½ ft. tall, 4½ in. pods. Excellent market variety being planted more and more due to high yields of choice quality. Equally suited for home gardens and local markets. ¼ Lb., 10c. ½ Lb., 20c. Lb., 30c. 2 Lbs., 55c. 5 Lbs., \$1.15. 10 Lbs., \$2.10. Postpaid.

Southern Strains of

PEPPERS

for Fall Profits

357 Hastings' Royal King

SPECIAL NOTICE To All Southern Buyers of Seed

Our firm has been noted for over fifty years as suppliers of the very finest seeds, plants, and bulbs available for home or market gardeners and adapted to Southern growing conditions. Our prices have always been at lowest rock bottom figures for the quality that we supply and our record of continuing business for such a long period assures to you the real money saving value that we have given these many years whether you buy a 10 cent packet or a hundred dollar shipment. Send directly to Hastings' and save the difference in more value!

Peppers Contain Health Vitamins A and B1

Sow July-Aug. for Florida fall shipping. Oz. makes about 1,000 strong plants; 1/2 Oz. plants 200 ft. row; use 1/4 to 1/2 Lb. for plants for one acre.

346 HASTINGS' SUPER-STRAIN CALIFORNIA WONDER

73 days. Size 4 1/2 x 4 in. Greatest pepper ever grown. Our super-strain is extra large, square shaped, thickest flesh and heaviest fruits of all. Stocky, prolific plants, bearing 4-lobed, sweet, mild, delicious fruits for all purposes. Pkt., 10c. 1/2 Oz., 30c. Oz., 50c. 1/4 Lb., \$1.25. Lb., \$4.00.

356 LARGE BELL OR BULL NOSE

70 days from plants. Size 3 x 2 3/4 in. Old standby for early home use. Sweet and meaty. Pkt., 5c. 1/2 Oz., 15c. Oz., 25c. 1/4 Lb., 75c. Lb., \$2.25.

353 IMPROVED KING

66 days. Size 5 1/4 x 3 1/2 in. All-America Special Mention, 1935. Superb long Ruby King type and much superior. Flesh thick, sweet and mild. Pkt., 10c. 1/2 Oz., 20c. Oz., 35c. 1/4 Lb., \$1.00. Lb., \$3.50.

352 RUBY KING

67 days. Size 4 3/4 x 3 in. Popular for home and market. Sweet, mild, thick flesh. Pkt., 10c. 1/2 Oz., 20c. Oz., 30c. 1/4 Lb., 90c. Lb., \$2.75.

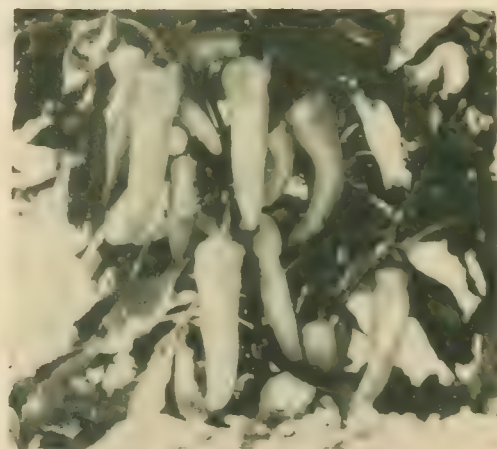

346 California Wonder Pepper

358 HASTINGS' PERFECTION PIMIENTO

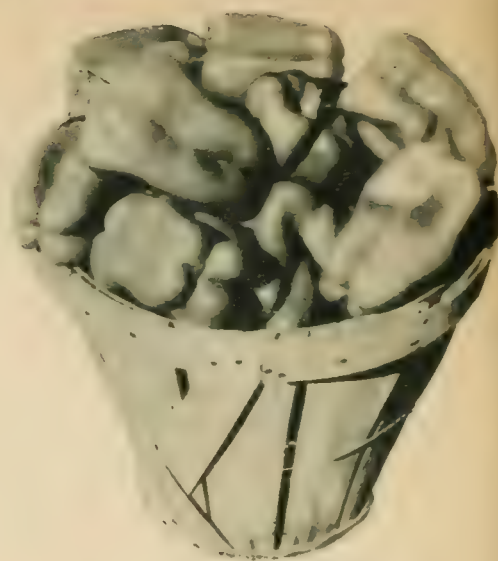

70 days. Size 3 1/2 x 2 1/2 in. Mildest of all. Thickest flesh, heart shaped, uniform beauty. Pkt., 10c. Oz., 25c. 1/4 Lb., 60c. Lb., \$2.00.

359 RUBY GIANT

73 days. Size 5 x 3 1/2 in. Large, rather tapered, 4-lobed, thick, very mild. Pkt., 10c. 1/2 Oz., 20c. Oz., 30c. 1/4 Lb., 90c. Lb., \$3.00.

350 Sweet Banana Pepper

355 World Beater Pepper

355 WORLD BEATER

73 days. Size 5 x 3 1/2 in. Great Royal King type for market and shipping; 4-lobed, thick, mild, sweet flesh on vigorous, productive plants. Pkt., 10c. 1/2 Oz., 20c. Oz., 35c. 1/4 Lb., \$1.00. Lb., \$3.50. Postpaid.

357 HASTINGS' ROYAL KING

73 days. Size 4 1/4 x 3 3/4 in. Our superb Georgia variety—sweet, mild, thick fleshed, blocky, uniform pepper for home and market. Strong, prolific plants. Pkt., 10c. 1/2 Oz., 20c. Oz., 30c. 1/4 Lb., 90c. Lb., \$3.00.

350 SWEET BANANA—1941 All America Winner. A very early, quite productive, long pointed yellow pepper with thick sweet flesh. Pods turn red at fall maturity. Very choice to use as yellow and red slices in making up fancy table salads. We recommend it very highly. Pkt., 15c. 2 Pkts., 25c.

HOT PEPPERS for Hot Sauce

349 LONG CAYENNE

Hot. 68 days. Size 5 x 3/4 in. Matures bright red, to can, pickle and dry. Pkt., 10c. 1/2 Oz., 20c. Oz., 30c. 1/4 Lb., 90c. Lb., \$3.00.

347 ANAHEIM CHILI

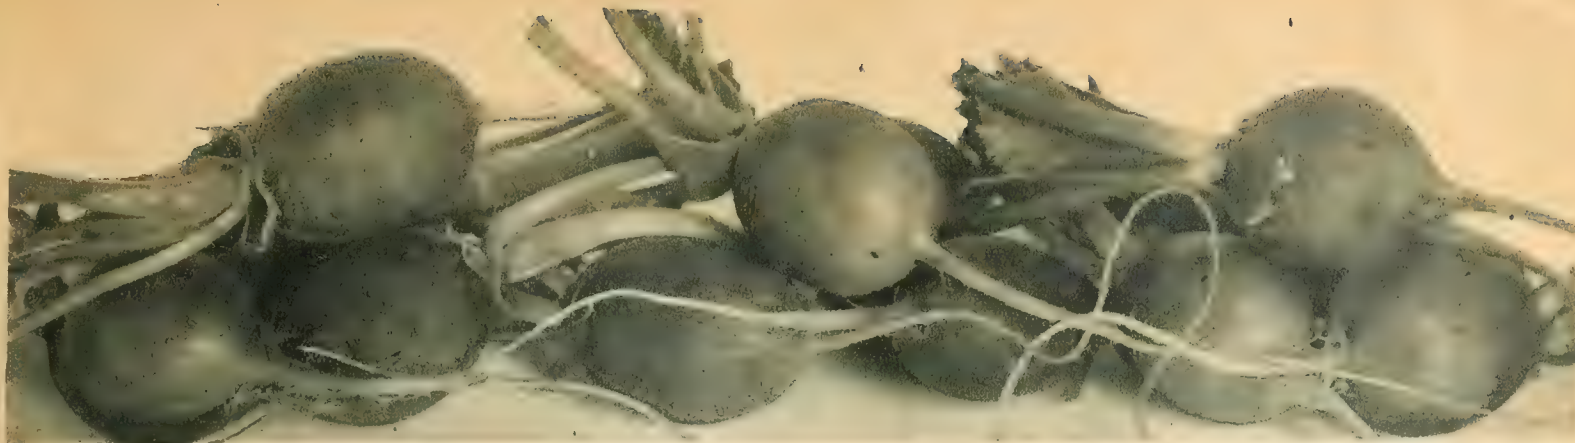

Mild. 77 days. Size 6 1/2 x 1 in. Largest, mildly hot, for table and canning. Pkt., 10c. 1/2 Oz., 30c. Oz., 50c. 1/4 Lb., \$1.50. Lb., \$4.75.

354 RED CHILI

Red Hot. 80 days. Size 2 1/2 x 1/2 in. Small tapering, piping hot, for drying and pepper sauce. Immensely prolific and best hot variety. Pkt., 10c. 1/2 Oz., 20c. Oz., 35c. 1/4 Lb., \$1.00. Lb., \$3.50.

351 MIXED PEPPERS

Our mixture of all varieties above. Caution Hot peppers growing near sweet ones will cross, making all taste pungent. Pkt., 10c. 3 Pkts., 25c.

372 Early Scarlet Globe

Crispest **RADISHES**

Are from these Hastings' Super Dixie Strains

Radishes Contain
Health Vitamin B1

Culture—Crisp, tender roots come from rich, moist, loose soil. Make successive plantings every 2 weeks to keep up supply. Sow winter radishes Aug.-Sept., others any time to use before frost. Oz. plants 100 ft. row; use 10 Lbs. per acre.

372 HASTINGS' EARLY SCARLET GLOBE—FORCING STRAIN

24 days. 1-1 1/4 in. Globe to olive shaped roots with white, tender, crisp, flesh and bright scarlet-red skin. Unsurpassed quality and producer for home and market. Uniform, fine tops and very early. Standard market variety. Pkt., 5c. Oz., 10c. 1/4 Lb., 20c. Lb., 65c. Postpaid.

381 SCARLET BUTTON

26 days. 1 in. Also called Scarlet Turnip. The popular round type with deep scarlet skin, mild flavor, crisp and tender, with small tops. Grand garden radish. Pkt., 5c. Oz., 10c. 1/4 Lb., 20c. Lb., 65c. Postpaid.

375 HASTINGS' ROSY GEM (SPECIAL) GARDEN AND MARKET STRAIN

26 days. 1-1 1/4 in. Also called White Tipped Scarlet Ball. Favorite with market gardeners for outdoors and forcing; frequently ready for market in 18-20 days. Most desirable kind for home gardens, similar to Scarlet Button but with white tips. Early, globe shaped, deep scarlet top, white tips. Flesh clear white, crisp. Pkt., 5c. Oz., 10c. 1/4 Lb., 20c. Lb., 65c. Postpaid.

378 CRIMSON GIANT

28 days. 1 1/4-1 1/2 in. A little longer, brighter color and larger than Scarlet Button. Grows quickly and retains tenderness and fine flavor. Good large home garden radish and its bright crimson color sells it quickly on markets. Pkt., 5c. Oz., 10c. 1/4 Lb., 20c. Lb., 65c. Postpaid.

382 LONG WHITE ICICLE

26 days. 5 1/2 in. long. Excellent and profitable outside or for forcing. Clear white, slender, tapering, with few leaves. Crisp, brittle, mild and sweet, quickly growing to eating size. Pkt., 5c. Oz., 10c. 1/4 Lb., 20c. Lb., 65c. Postpaid.

383 HASTINGS' GLASS

28 days. 6-7 in. long. Also called Cincinnati Market. Our improved Early Long Scarlet for home and market. It's grand. Pkt., 5c. Oz., 10c. 1/4 Lb., 20c. Lb., 65c. Postpaid.

387 MIXED RADISHES

All except Winter varieties mixed. Gives a splendid assortment of crisp, tender radishes from one sowing. Big home favorite. Pkt., 5c. Oz., 10c. 1/4 Lb., 20c. Lb., 65c. Postpaid.

Winter Radishes

377 CHINA ROSE—WINTER RADISH

52 days. 5x2 in. Handsome deep rose skin; flesh white, crisp, of pungent flavor. Good keeper into spring. Pkt., 5c. Oz., 10c. 1/4 Lb., 20c. Lb., 65c. Postpaid.

386 BLACK SPANISH WINTER

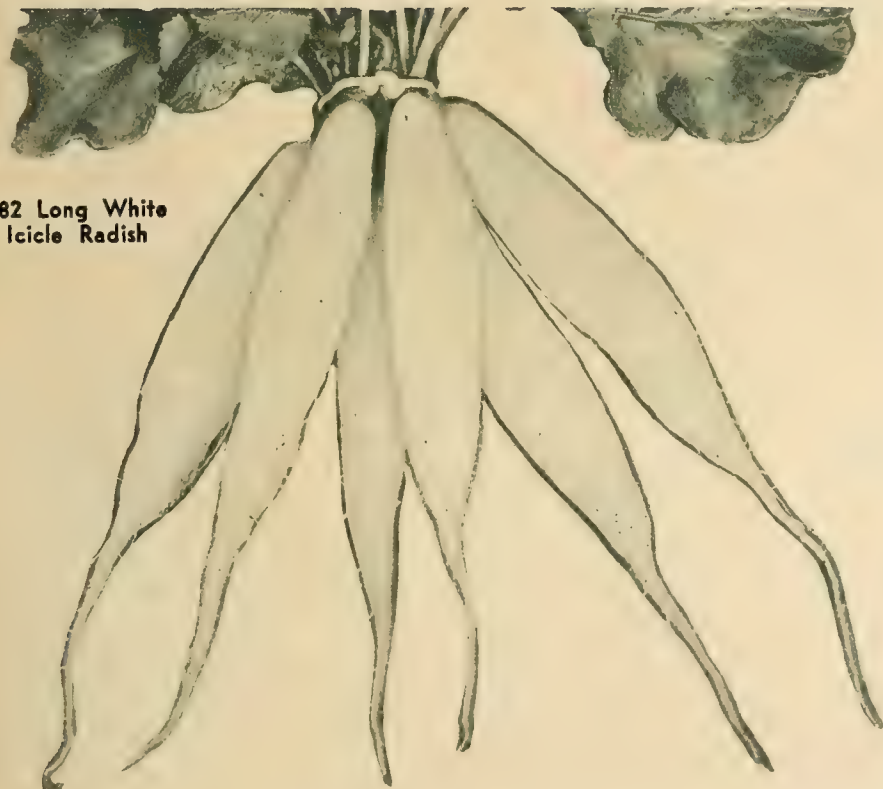

56 days. 3 1/2 in. across. Round roots, black skin and crisp white flesh. Strong flavor; excellent keeper. Pkt., 5c. Oz., 10c. 1/4 Lb., 25c. Lb., 75c. Postpaid.

390 CALIFORNIA MAMMOTH WHITE—WINTER

60 days. 7 1/2x2 in. Largest winter radish; white skin and flesh; solid, crisp and not pungent. Pkt., 5c. Oz., 10c. 1/4 Lb., 20c. Lb., 65c. Postpaid.

376 HASTINGS' EXTRA EARLY LONG SCARLET—FORCING STRAIN

26 days. 5-6 in. long. Most popular for garden and market use. Tops small; tapering roots intense bright scarlet; flesh white, crisp and tender. Best all-purpose long radish. Pkt., 5c. Oz., 10c. 1/4 Lb., 20c. Lb., 65c. Postpaid.

382 Long White
Icicle Radish

440 GROTHEN RED GLOBE—77 days. Scarlet. Heavy yielding main crop tomato ripening 10-14 days ahead Marglobe—extending season. Full globe, brightest scarlet. Pkt., 10c. $\frac{1}{2}$ Oz., 30c. Oz., 50c. $\frac{1}{4}$ Lb., \$1.50. Lb., \$5.00.

432 NEW EARLY VICTOR

1941 All America medal winner. Extra early medium scarlet fruit, setting crop all at once. Try it. Pkt., 15c. 2 Pkts., 25c.

452 HASTINGS' DWARF CHAMPION—83 days. Pink, bush tomato; needs no support. Garden favorite. Pkt., 10c. $\frac{1}{2}$ Oz., 25c. Oz., 40c. $\frac{1}{4}$ Lb., \$1.25. Lb., \$4.00.

444 HASTINGS' EXTRA EARLY PROLIFIC—65 days. Scarlet. Open foliage, large, flat-round fruits; for home market. Pkt., 10c. $\frac{1}{2}$ Oz., 25c. Oz., 40c. $\frac{1}{4}$ Lb., \$1.25. Lb., \$4.00.

433 MINGOLD. 73 days. All America Winner. Medium mild golden fruits borne early. Pkt., 15c. $\frac{1}{2}$ Oz., 50c. Oz., 90c.

460 JUNE PINK—69 days. Pink Earliana for home, market shipping. Pkt., 10c. $\frac{1}{2}$ Oz., 25c. Oz., 40c.

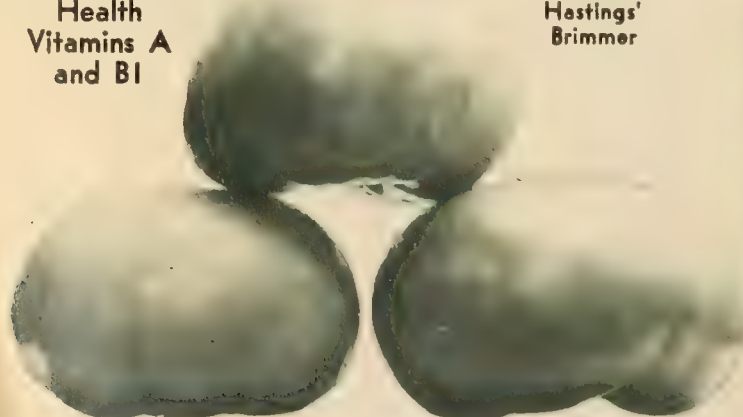

442 JOHN BAER—70 days. Scarlet. Favorite nearly round, for canning, market, shipping. Pkt., 10c. $\frac{1}{2}$ Oz., 15c. Oz., 25c. $\frac{1}{4}$ Lb., 75c. Lb., \$2.50.

439 BONNY BEST—Chalk's Early Jewel. 74 days. Scarlet. Popular for home, market. Pkt., 10c. $\frac{1}{2}$ Oz., 15c. Oz., 25c. $\frac{1}{4}$ Lb., 75c. Lb., \$2.50.

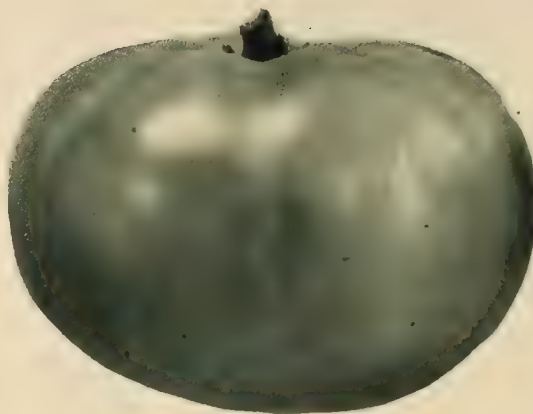

464 GULF STATE MARKET
82 days. Pink, heavy bearer. Best shipper, most perfect, globular fruits for the South. Pkt., 10c. $\frac{1}{2}$ Oz., 25c. Oz., 40c. $\frac{1}{4}$ Lb., \$1.00. Lb., \$3.50.

445 HASTINGS' REDFIELD BEAUTY
82 days. Purplish pink, large, round, all-purpose standby. Heavy continuous bearer. Pkt., 10c. $\frac{1}{2}$ Oz., 20c. Oz., 35c. $\frac{1}{4}$ Lb., \$1.00. Lb., \$3.00.

461 YELLOW PLUM—73 days. Yellow, oval plum-shaped tomato. Pkt., 10c. $\frac{1}{2}$ Oz., 30c. Oz., 50c. $\frac{1}{4}$ Lb., \$1.50.

A Nice Testimoniall

"I wish to express my appreciation of the service I have received, both in prompt delivery and in the quality of seeds you have sent me in the past.

"In comparison with several other dealers from whom I have ordered, your individual packets contain more seed, at a lower price, and of better germination; while the quality of the plants is most satisfactory.

"Further than this I believe your claim is well made—that your selection of seeds is best adapted to the Southern climate.

"Please accept this merely in recognition of the effort you are apparently making to render a real service, in supplying high quality seeds at a fair price."—(Taken from our files.)

HASTINGS' *Wilt-Resistant* TOMATOES

1941 WILT-RESISTANT TOMATO COLLECTION—25c

Scarlet Dawn, Hastings' Everbearing Scarlet Globe and Hastings' Super-Marglobe. Finest wilt-resistant varieties—earliest, second early and main crop. The "big 3" tomatoes of today, pictured in full color on our spring, 1941, catalog cover. 25c for 1 Pkt. of Each— $\frac{1}{2}$ Oz. of Each for 65c. Postpaid.

Tomato Culture—Start seed in box or bed of fine soil. Transplant 3 ft. apart each way. Oz. makes about 1,500 strong plants; use $\frac{1}{4}$ Lb., for 6,000 plants per acre.

458 MARHIO—80 days. Rosepink fruit. Wilt-resistant new pink Marglobe for home, market and shippers' main crop. Pkt., 10c. $\frac{1}{2}$ Oz., 25c. Oz., 40c. $\frac{1}{4}$ Lb., \$1.25. Lb., \$4.00.

456 LOUISIANA PINK. A favorite semi-globe shaped, heavily productive mild fruited variety for home and market. Pkt., 10c. $\frac{1}{2}$ Oz., 25c. Oz., 40c. $\frac{1}{4}$ Lb., \$1.00. Lb., \$3.50.

457 BREAK O' DAY—70 days; scarlet fruit. Early, prolific, medium size, globular, thick walled fruits. Pkt., 10c. $\frac{1}{2}$ Oz., 20c. Oz., 35c. $\frac{1}{4}$ Lb., \$1.00. Lb., \$3.00.

447 PRITCHARD—Scarlet Topper. 72 days; scarlet, smooth, globular, meaty, fruits for home, market and shipping. Pkt., 10c. $\frac{1}{2}$ Oz., 25c. Oz., 40c. $\frac{1}{4}$ Lb., \$1.25. Lb., \$4.00. 5 Lbs., \$18.00. Postpaid.

446 RED RUTGERS. 86 days. Wilt-resistant. A strong vigorous heavily foliated tomato well suited for very warm climates where fruit protection from sun is desired. Fruit globular, rich bright red with thick walls and small seed cells. Pkt., 10c. $\frac{1}{2}$ Oz., 25c. Oz., 40c. $\frac{1}{4}$ Lb., \$1.25. Lb., \$4.00.

437 HASTINGS' EVERBEARING SCARLET GLOBE

72 days. Scarlet fruit. Wilt-resistant, early, long, prolific bearer of ball-shaped, heavy, solid, meaty fruits. For home, market, shipping. Pkt., 10c. $\frac{1}{2}$ Oz., 30c. Oz., 50c. $\frac{1}{4}$ Lb., \$1.75. Lb., \$6.00. Postpaid.

462 HASTINGS' SUPER MARGLOBE (Special Selected Seed)

78 days. Scarlet. Best all-round, main-crop, heavy bearing, wilt resistant tomato in existence. Globe shaped, smooth, solid, heavy fruits of fine quality for all purposes. Vigorous plant, heavy foliage. We claim our super-strain to be the best in existence. Pkt., 10c. $\frac{1}{2}$ Oz., 25c. Oz., 40c. $\frac{1}{4}$ Lb., \$1.25. Lb., \$4.00. 5 Lbs., \$18.00.

462 Hastings' Super-Marglobe

459 Early Scarlet Dawn

459 EARLY SCARLET DAWN

 Gold Medal, 1935. 68 days from plants. Scarlet fruit. Best and surest extra early. Globular, very heavy, solid, smooth fruits of medium size. Medium plants fairly open growth. Pkt., 10c. $\frac{1}{2}$ Oz., 40c. Oz., 75c. Supply very limited.

PLANT *FRESH* SEED ORDER *DIRECT* FROM HASTINGS

You will note that we use this expression at the foot of nearly all the pages in this and our other catalogs. We wish to impress upon you, our customer, the material advantages in buying "direct" from us.

In the first place we are large growers and contractors for only those finest strains of seed best suited to grow in our own Southern soils and climate. Thus we get the finest quality and at very reasonable costs and savings which we pass on to you. Our prices are low indeed for the true quality and productive value we give.

In addition, we store our seed in Atlanta at an elevation of 1100 feet, same being ideal and far superior to coastal cities and low altitudes where vitality declines so rapidly. This insures the "freshness" and remarkable vitality of the seed we offer. From Hastings, DIRECT, you are sure of getting fresh, vital big crop seed at the lowest cost possible. Think about it!

BE SURE WITH

Hastings'
SEEDS

PARSLEY for Garnishing

Oz. plants 200 ft. row. Soak seed 12 hours before planting.

308 EXTRA TRIPLE MOSS CURLED
Compact plant, deep green, finely cut and triple curled leaves. Standard variety for garnishing and very decorative. Pkt., 5c. Oz., 10c. 1/4 Lb., 30c. Lb., \$1.00.

309 DOUBLE CURLED PARSLEY
Dwarf compact plant with finely cut dark green leaves, giving appearance of coarse moss. Fine for garnishing; often used for market. Pkt., 5c. Oz., 10c. 1/4 Lb., 30c. Lb., \$1.00.

310 PLAIN LEAVED PARSLEY

Leaves dark green, flat, deeply cut, not curled. Used largely for flavoring. Pkt., 5c. Oz., 10c. 1/4 Lb., 30c. Lb., \$1.00.

PARSNIP

311 IMPROVED HOLLOW CROWN
80 days. Best and most popular parsnip. Roots 12 in. long, 2 1/2-3 in. across shoulder, hollow crowned and uniformly tapered. Rich, sweet flavor; very productive. Oz. plants 100 ft. row; use 5 Lbs. per acre. Pkt., 10c. Oz., 15c. 1/4 Lb., 50c. Lb., \$1.50.

280 COMBINATION SALAD

HASTINGS' MIXED GREENS FOR BOILED DINNERS

Our own mixture of Turnips, Mustard, Kale or Borecole and Rape—properly proportioned to give you fine boiled dinners within a few weeks and many of them until you've eaten them all up. Late summer and fall is greens planting time and here's the combination of them all. Oz., 10c. 1/4 Lb., 25c. Lb., 60c. 5 Lbs., \$2.40.

SALSIFY

404 MAMMOTH SANDWICH ISLAND Vegetable Oyster. Strong grower with creamy white tapering roots, 6-8 in. long and 1 1/4 in. thick, smooth and well flavored. Sow Sept.-Oct. in lower South in 18 in. rows, thinning 3 in. apart. Dig as needed. Pkt., 10c. Oz., 25c. 1/4 Lb., 75c. Lb., \$1.75. 5 Lbs., \$8.00. Postpaid.

Culture—The best cool weather vegetable for greens, with thick, juicy leaves and delicious flavor. Sow Oct.-Dec., while ground is not frozen, except sow New Zealand early. Use rich soil. Oz. plants 100 ft. row; sow 10-15 Lbs. per acre in 18 in. drills.

411 HASTINGS' ARAGON

45 days. **Giant Thick Leaved.** Extremely large, main-crop, vigorous growing variety with long, broad, thick, smooth or lightly crumpled leaves of deep green color. Excellent for home gardens, truckers and canning. Aragon is a fine heat-resisting sort and believed the hardest to cold, standing ordinary winters in the Atlanta latitude. Pkt., 5c. Oz., 10c. 1/4 Lb., 30c. Lb., 90c. Postpaid.

413 IMPROVED GIANT NOBEL

All-America Award of Merit, 1933.

45 days. **Giant Thick Leaved.** Heaviest producer of very thick, rich green leaves and is quite slow in running to seed. Leaves are huge, rounded, lightly crumpled, very succulent, crisp, tender and of delicious flavor. A money-maker for market gardeners and canners; splendid for home use. It grows rapidly into the largest spinach in cultivation, vigorous, spreading plants for a plenty of greens. Pkt., 5c. Oz., 10c. 1/4 Lb., 30c. Lb., 90c. Postpaid.

412 BLOOMSDALE SAVOY

42 days. **Norfolk Savoy Leaved.** The vigorous, earliest, long-standing savoy-leaved spinach. Plants are uniform, very attractive with highly crumpled or savoyed dark green leaves. Valuable for home and market gardeners and for shipping from the lower South. Pkt., 5c. Oz., 10c. 1/4 Lb., 30c. Lb., 85c. Postpaid.

416 NEW ZEALAND

70 days. **Summer Spinach.** Grows luxuriantly even in hottest weather. Cut-and-come-again type, growing on poor land or rich. Plant is large, spreading, of fine quality, with rather small, broad pointed leaves. For late summer planting in lower South. Soak seed 24 hours before planting to speed germination. Pkt., 10c. Oz., 15c. 1/4 Lb., 40c. Lb., \$1.25. Postpaid.

CONFIDENCE

You cannot know how or where the seeds you buy are grown, but just trust that, under good soil and seasonal surroundings, they will grow and produce profitably for you.

Hastings' customers have been so trusting this firm for over fifty years now and if the trust had not been well placed we could never have so long survived.

We offer you our long experience and dependability in each purchase that you make from us—whether a small packet or a large bulk seed order, or bulbs, plants or trees.

308 Triple Moss Curled Parsley

Mr. R. E. Thornton, of Tennessee,
with Hastings' Shogoin Turnips

Culture. Sow Rutabagas from July, other turnips 30-60 days later in well prepared ground. One ounce plants 200 foot row. Use 3 Lbs. for acre.

HASTINGS' BIG 7 FALL TURNIP COLLECTION

Only **30c**

Most popular of all. Gives you a full supply of early, medium and late turnips for greens and roots. Any seed held over is perfectly good for spring planting. One ounce each of Purple Top Globe, Seven Top Shogoin, Early Red or Purple Top, Amber Globe, White Egg and Rutabaga for only 30c. Order your collection now!

7 Ounces, 7 Varieties, 30c— $\frac{1}{4}$ Lb. of Each, \$1.00

TRUE SOUTHERN TURNIPS for Fall Dinners

Turnips Contain Health Vitamins A and B1

475 Purple Top Globe

57 days. 4-6 in. Our most popular turnip. Handsome large globe shaped heavy cropper all over the South. Always good quality, good keeper and grand seller. Plant lots of them for home use and market. Pkt., 5c. Oz., 10c. $\frac{1}{4}$ Lb., 20c. Lb., 50c. 5 Lbs., \$2.25. Postpaid.

466 EARLY RED OR PURPLE TOP

46 days. 3-5 in. Purple Top Strap Leaf. Early flat turnip, quick grower, fine-grained, sweet flavor. Most popular early. Pkt., 5c. Oz., 10c. $\frac{1}{4}$ Lb., 20c. Lb., 50c. 5 Lbs., \$2.25. Postpaid.

467 EARLY WHITE FLAT DUTCH

46 days. 3-5 in. Similar to Purple Top except skin is pure white and very small tap root. Medium sized quick grower. Pkt., 5c. Oz., 10c. $\frac{1}{4}$ Lb., 20c. Lb., 50c. 5 Lbs., \$2.25. Postpaid.

476 EXTRA EARLY WHITE EGG

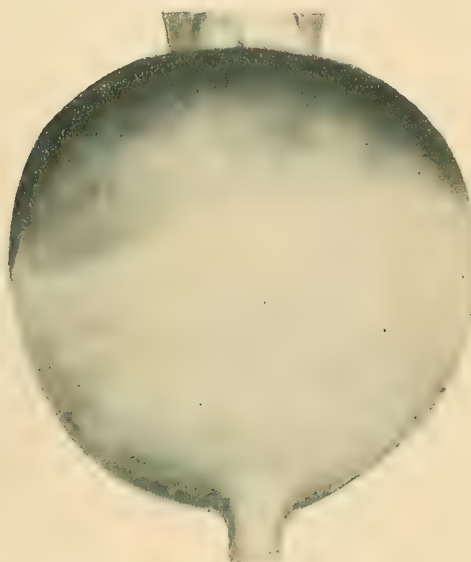

57 days. $2\frac{1}{4} \times 3\frac{1}{4}$ in. Finest flavored, skin and flesh snow white, solid, fine grained, sweet, bunches well and a good seller. Pkt., 5c. Oz., 10c. $\frac{1}{4}$ Lb., 20c. Lb., 50c. 5 Lbs., \$2.25. Postpaid.

479 HASTINGS' MIXED TURNIPS

Our mixture of all turnips and rutabagas for a full season's supply, of many kinds, from one planting. Balanced formula mixture for greens and roots of early, medium and late maturing sorts for a continual supply. Pkt., 5c. Oz., 10c. $\frac{1}{4}$ Lb., 20c. Lb., 50c. 5 Lbs., \$2.25.

478 Japanese Shogoin

Best all-purpose turnip in existence. It resists plant lice, unlike any other, it has a heavy crop of leaves, 18-20 in. high and holds them up off the ground. Its roots are globe-shaped, medium sized, all white, sweeter, milder and of better flavor. Plant Shogoin. Pkt., 5c. Oz., 10c. $\frac{1}{4}$ Lb., 20c. Lb., 60c.

475 Purple Top Globe Turnip

477 Seven Top Turnip

The salad variety planted everywhere in the South for greens. Roots are tough and not for the table, but tops are produced in abundance and are very tender and succulent. Also used for feed, but homes and nearby markets are glad to have fresh turnip salad at all times. Very hardy. Pkt., 5c. Oz., 10c. $\frac{1}{4}$ Lb., 20c. Lb., 50c. 5 Lbs., \$2.25. Postpaid.

465 EXTRA EARLY MILAN

42 days. 3-4 in. wide. Earliest, flat purple topped turnip. Sweet, fine grained flesh. Pkt., 5c. Oz., 15c. $\frac{1}{4}$ Lb., 30c. Lb., \$1.00. 5 Lbs., \$4.00. Postpaid.

471 SOU. SNOW WHITE GLOBE

60 days. 4-6 in. Pure white, round, solid, quickly growing to large size and making big tonnage per acre. Hardy variety, mellowing like an apple in storage. Pkt., 5c. Oz., 10c. $\frac{1}{4}$ Lb., 20c. Lb., 50c. 5 Lbs., \$2.25.

470 LONG WHITE COWHORN

70 days. $2\frac{3}{4} \times 12$ in. Roots long, carrot-shaped, $\frac{1}{3}$ of root above ground for easy pulling. Resists drought and cold. Flesh pure white, fine-grained, sweet and of excellent table quality. It is also often planted with rape for stock food. Pkt., 5c. Oz., 10c. $\frac{1}{4}$ Lb., 20c. Lb., 50c. 5 Lbs., \$2.25. Postpaid.

469 YELLOW OR AMBER GLOBE

Yellow Stone. 76 days. 5-7 in. Best all-round yellow turnip. Globe-shaped light yellow skin and flesh. Fine-grained, sweet, a good keeper and big cropper. Tops are large and cut-leave. Real table quality but also used for stock. Pkt., 5c. Oz., 10c. $\frac{1}{4}$ Lb., 20c. Lb., 50c.

468 Improved American Rutabaga

88 days. 5-7 in. Heaviest cropper of all rutabagas for the South. Rich, uniform, purple colored top and light yellow flesh; tender and sweet. For table use, storage and stock feed. Pkt., 5c. Oz., 10c. $\frac{1}{4}$ Lb., 20c. Lb., 60c.

468 Hastings' Improved Rutabaga

WINTER CROPS

for Early Planting in Lower South

Vegetables For Fall Planting
in the Far South or Forcing Indoors
in Regions Farther North

Complete listings with full descriptions and illustrations, are in our annual spring catalog, ready December 30th.

Special Market

Garden Service

Hastings'
SEEDS

PRETESTED

DATED

FOR SOUTHERN SOILS AND CLIMATE

Through our long association and close connection with Southern market gardeners, together with study of the special needs for Southern soils and climate, we believe you can depend on our strains and varieties of seeds which have been selected with these points in mind.

Our firm members are widely known in Seed Trade circles as quality growers and buyers. We never sacrifice quality and dependability in order to quote a cut price, but we believe we do offer the greatest crop producing values of all, regardless of price.

The special colored price lists are given to you with this catalog to give you the latest current market quotations on larger than the regular postpaid quantities. They are included for your benefit, Mr. Farmer and Mr. Market Gardener. Use them and get the best value your money can buy.

SAVE LABOR . . .with Winter Farm Crops

Winter Legumes for Winter Farming Profits

Twelve Months' Farming Pays Twelve Months' Wages

Cash in on Soil Conservation Payments
Build Your Soil and Prevent Erosion with

Austrian Winter Peas and Genuine Hairy Vetch

With the government paying us to protect our farm lands and penalizing us when we do not, it is just plain foolishness to pass up such an opportunity to make our soils more productive with such little labor cost.

Farm acres left idle in winter when our heavy rains come, are literally washed away, carrying not only the easily worked loamy soil but the natural plant food accumulation of centuries within them.

Hardy growing crops such as **Austrian Winter Peas** and **Genuine Hairy Vetch** are recognized as being the very best legume or soil building crops to grow here in the South and we heartily recommend them to you to plant this fall.

The actual cost of seeding is very little compared with the benefits resulting and your conservation payments are generally sufficient to take care of the expense. They do not require cultivation and grow when grass and weeds are practically dormant.

Many prominent planters simplify the planting of these winter legumes by drilling one to three drills in each cotton, corn, or other clean row, cultivated crop middle. On good land a single drill in each middle will cover the land by crop maturity the following spring, though two drills will probably give maximum benefits in green manure and nitrogen.

On prepared land both peas and vetch are often planted broadcast and in this manner the maximum tonnage of hay or green manure can be had. 200 pounds of acid phosphate, 1,000 pounds basic slag, per acre or barnyard manure naturally increases growth very noticeably. For satisfactory hay crops, combinations of vetch and oats, wheat, barley or rye, and winter peas and oats, wheat, barley or rye make enormous yields of very fine quality, the grain giving support to the vines. Broadcasting one bushel of grain to 20-30 pounds of peas or vetch per acre is sufficient for a good stand.

"Driv To It By Compellment"

"I never would a' done it in dis world if I hadn't been jes' driv' to it by compellment," said an old negro farmer in telling of changes he had made for the better in his farm methods. The above was contained in an editorial in the July issue of *Progressive Farmer*. I am sure Dr. Clarence Poe will not object to my borrowing it for use in this little talk.

The Hastings seed business, now in its 52nd year, has lived through five depressions big and little (hard times periods) and two wars, one little war (Spanish-American) and a big war, World War No 1. We now have World War No. 2 on our hands regardless of whether we get into it on a shooting basis or not. It is going to have a profound effect on all of us. It's time to get set to meet its effects. World War No. 1 (1914-1918) affected all of us. It brought evils in farming, business, finance and habits of life that we had not recovered from when World War No. 2 broke in our faces. It is covering far more countries, it is dislocating world trade in a far greater degree, and before it's ended probabilities are for almost universal bankruptcy for all European and Asiatic countries involved.

We here in the United States are just beginning to feel the effects. These will become greater day by day, week by week, month by month. Prospects are for a long drawn out war. Our army and navy and air forces are preparing for a several years war. Our labor conditions are becoming difficult. Everything we buy has already risen in price or will shortly; rise faster than the prices of commodity crops our farmers have to sell.

In all these depressions, in the direct and after effects of war, our farm folks who survived, who didn't lose their farms or get head over heels in debt had to change their farm methods or habits and usually to their betterment. Most did not do it willingly. We were "driv to it by compellment." The sad part is that so many, once the emergency was over or seemingly so, drifted back into the old ruts because it seemed a little easier when cash crop prices were high and food prices low.

All through the depressions and wars there were some families in almost every community who were never "distressed." They might not have much money in pocket or bank but they owed no debt, they had food and feed ahead until next season. What cotton they made they owned instead of owed to merchant or banker. They were always safe.

In recent years they have a new name for a very old and safe farm practice. The new name is "Subsistence Farming." I believe in it 100 per cent. But, in both principle and practice I can't see much difference between that and what we all used to call "living at home and boarding at the same place." It's the only safe and sane way, more necessary to follow now than any time since the War-Between-the-States.

What Will This War Do to You?

Will it make you or break you?

I am not talking about whether you or members of your family will be drawn into active military service. What I am interested in is whether you are going to run your affairs

and farm program so you will come out of this war period and the depression that will inevitably follow it, better off than now or whether you will follow the old road to debt and bankruptcy so common after World War No 1.

Fine progress has been made on thousands of our farms in recent years, stopping of erosion, soil building with cow-peas, soy beans, lespedeza, etc. in summer; with Austrian Peas and Vetch in winter. New permanent pastures have been made, more and better cattle, hogs, sheep and poultry have been added. The progress we have made is fine, but not near enough.

In fact, what we have done so far is only a good start toward a farm program and regular farm practice that will make us safe and prosperous and able to have all the necessities and conveniences we should have. We have got to learn to travel entirely on our own. These government benefit payments will stop some day. The government can't stand these and enormous defense and war costs both.

In all war periods, in all periods of "good times" about the first thing to go up in price is food and feed. They are steadily on the rise now. This is fine for those who have food and feed to sell, it's hard on all who have to buy food and feed items. Our farm folks of the South are too largely food and feed buyers, too seldom producers and sellers. Your acres should be busy the year round, either growing food and feed or else in soil improvement crops.

In a few weeks it will be time to plant the fall grain crops, wheat, oats, barley and rye, both for the grain, winter and spring grazing and to stop winter washing of soil. Also the Austrian Peas and Vetches for soil improvement and to earn government benefits as long as they last. Plant these things to the limit. Wheat means bread for your table; oats and barley means grain for your live stock. All mean winter grazing and soil saving.

Last, but not least, the fall garden. Not just the usual small turnip patch for greens and maybe a few turnips but a real fall and winter garden. Not too late now to make a last planting of bush snap and bush butter beans; then a good turnip patch both for turnips and salad and beets, carrots, early kinds of cabbage, collards, kale, lettuce, mustard, onions, radish, tendergreens and spinach. They all belong in fall gardens all over the South. They are money and health savers and vegetables from your garden and farm raised bread and meat pay no merchant a profit, no railroad or truck line a freight charge. It's earning by saving.

Printed in a Georgia paper recently was the following that's well worth your while. We quote: "The Lord gave us two ends—one to sit on and the other to think with. A man's success depends upon which one he uses most. It's a case of heads you win, or tails you lose. Take your choice."

H. G. HASTINGS.

Austrian Winter Peas

402 Austrian Winter Peas or Hardy Cowpeas

The Winter Cowpea. Remarkable winter legume. It resembles an English Pea in size of seed, Canada Field Pea in character of vine growth. It's a heavy yielder, can be grazed and will put on a good second growth with better stooling out. It makes splendid hay, excellent for turning under, a fine winter cover crop and soil improver. It grows waist high, can be planted by itself or with a light seeding of oats or rye to hold vines off the ground.

This "Winter Cowpea" will protect your soil, hold and increase soil fertility, furnish grazing for your livestock and make plenty of hay besides. Turned under, it makes wonderful green manure. Sow like Vetch, 20 to 30 pounds per acre. Lb., 25c. 5 Lbs., 75c. Postpaid. Write or wire for lowest quantity prices when ready to buy.

AUSTRIAN WINTER PEA SEED GENUINE NITRAGIN INOCULATION

For 1/2 Bu., 25c. 1 Bu. size, 35c. 100 Lbs. size, 55c. 5 Bu. size, \$1.50.

400 Dwarf Essex Rape

400 DWARF ESSEX RAPE

Description—Rape top growth looks much like Rutabaga Turnips but does not form a bulbous root. It grows 15 to 30 in. high, making a splendid green feed and forage crop relished by all kinds of stock, but principally planted for hogs and poultry. It is also popular for "greens" on the table and is a fine substitute for turnip or spinach greens. Rape is hardy, standing any ordinary cold in the Cotton Belt or farther South. It is ready for grazing in 8 to 10 weeks from planting, with its broad, succulent leaves, and we know of no crop planted during fall and winter that will bring as great returns for such a little expenditure of time and money for seed.

Culture—Plant any time from August to April. 10 pounds broadcast or 3 to 4 pounds per acre if planted in drills like turnips.

PRICES—1/4 Lb., 10c. Lb., 35c. 5 Lbs., \$1.25. 10 Lbs., \$2.25. Postpaid.

401 Genuine Hairy or Winter Vetch

SAND, HAIRY OR WINTER VETCH

The hardy variety, standing severe winters in all parts of the South without injury. Vetch makes a magnificent hay crop in spring and leaves added fertility to the soil. Broadcast the seed, mixed with oats or rye for support, at the last working of corn and cotton. It matures seed in June and can be plowed under and a summer crop planted. If this is done, the land will be reseeded in Vetch. A good stand will come up during late summer and make a heavier growth the next year.

Prices—Lb., 30c. 5 Lbs., \$1.00. Postpaid.

Write or wire for lowest quantity prices when ready to buy.

VETCH SEED GENUINE NITRAGIN INOCULATION

For 1/2 Bu. 25c. 1 Bu. size, 35c. 100 Lbs. size, 55c. 5 Bu. size, \$1.50.

Hastings' Special Grain Pasture Mixture

Best Grain Pasture For Hogs and All Stock. Made of the finest winter growing grains and forage crops, including Oats, Rye, Wheat and Barley for grazing purposes with enough Vetch and Austrian Peas in just the right proportion to add variety and soil improvement to the pasture.

This mixture acts as a cover crop, keeping the land from "washing" during the winter rains and turning it under before the summer crop, builds up your soil. The grazing stock will manure the land, saving fertilizer and saving spreading it. Broadcast at least 100 pounds per acre, from September until mid-winter.

Price—F. O. B.—50 Lb. Bag., \$2.00. 100 Lb. Bag, \$3.50.

A GREEN PASTURE ALL WINTER IS EASY

Thousands of pasture acres are sown in Rye Grass each fall to insure full 12-month grazing on Southern Bermuda, Carpet and other grass pastures. Keep milk flowing or flesh growing on your livestock this new inexpensive way. Simply broadcast 40 pounds of Hastings' Pasture Grade Rye Grass per acre in early fall for velvety green pastures all winter long. Write for best quantity prices now on enough for your pasture.

Soil-Building CLOVERS

504 Hastings' Crimson Clover for the South

The hardy annual clover for late summer and fall sowing. Succeeds on any fair soil in the upper South. May be grazed in winter until March, when a full crop can still be made. Broadcast 20-25 Lbs. per acre; harrow in lightly. Produces 1½-2 tons of dry hay; 8-10 tons of green feed per acre. Inoculate seed. Lb., 35c. 5 Lbs., \$1.25. Postpaid. Write or wire for quantity prices when ready to buy. Don't delay!

504 Hastings' Crimson Clover

501 ALSIKE CLOVER

Swedish Clover. Best for wet lands. Similar to Red Clover, more slender stems, smaller leaves. Blossoms white, shading pink. Fine with grasses for hay or pasture in the northern cotton belt. Plant 15 pounds per acre. Inoculate seed. Lb., 50c. Postpaid. Write for market prices.

507 SWEET CLOVER—MELILOTUS

Bokhara Clover. Called Alfalfa's twin sister and a great land builder. Fine for building up poor land and for bees. It grows on poor land and helps prepare soil for good alfalfa, which it resembles. White-flowered. Use 15 pounds per acre. Inoculate seed. Hulled seed. Lb., 30c. Postpaid. Write for market prices.

502 HARDY LESPEDEZA SERICEA

Hardy perennial "poor land alfalfa" ideally suited for more permanently planting

old lands needing rejuvenation. Holds land against washing and builds fertility at the same time. Broadcast 15 pounds per acre. Inoculate seed. Lb., 45c. 3 Lbs., \$1.25. Postpaid. Write for market prices.

508 RED CLOVER

Best American Grown. Valuable pasture, hay and soil improvement farm crop in the upper South. September and March plantings are both good. Makes rich feed and fine hay. Use 15 pounds per acre. Inoculate seed. Lb., 50c. Postpaid.

509 WHITE DUTCH CLOVER

For entire central South, in lawns and pastures. Uncertain growth, so better mixed with other grasses and clovers. Does well on moist ground or in wet seasons, a splendid perennial. Broadcast 12 pounds per acre for pasture or 2 pounds per 1,000 sq. ft. for lawns. Inoculate seed. Lb., 90c. 5 Lbs., \$4.25. Postpaid.

500 HASTINGS' ALFALFA

(Kansas Grown Seed)

Most widely planted and important clover. Recommended for the upper South and farther north, where 3 to 5 cuttings a year may be made, to produce as much as 4 to 7 tons of most valuable hay per acre. Long branching roots penetrate very deep, resisting drought, loosening subsoil and feeding deep. Sow in fall or spring, on high and rather dry land and cut when coming into bloom. Most valuable, sweetest hay, cures well and retains a green color when dry. Plant high western grown seed in the upper South and even that must be the purest, free from weed seeds, possible to get. Hastings' Alfalfa is over 99% pure, highest grade, Kansas grown seed. Broadcast 20 Lbs. per acre. Inoculate seed. Pound, 50c. Postpaid. Write for market prices.

GENUINE NITRAGIN INOCULATION

Bacteria for Legume Crop Seeds. Clover, Alfalfa, Beans, Peas, Vetch and other legumes get a start, yield bigger crops if the soil bacteria for these crops are mixed with the seed at planting time. Different kinds of bacteria live on different kinds of legumes.

Order For Crop Wanted

For Red, Crimson, Alsike, White Clovers—½ bu. size, 30c. Bu. size, 50c. For Alfalfa, Sweet, Bur, Hubam Clovers—½ bu. size, 30c. Bu. size, 50c. For Vetches, Austrian Peas, Sweet Peas, Garden Peas—½ bu. size, 25c. Bu. size, 35c. 100 Lb. size, 55c. 5 Bu. size, \$1.50. For Garden Snap and Field Beans—½ Bu. size, 25c. Bu., 35c. 5 Bu., \$1.50. For Lespedeza—50 Lb. size, 45c. 100 Lb. size, 65c.

Hastings' Alfalfa

Hastings' HUNDRED-BUSHEL OATS

Best Heavy-Yielding Rust-Proof Oats for the South

Plant in Early Fall on
Well Prepared Land. Drill 2-3
Bushels Per Acre.

Hastings' Hundred-Bushel is a true strain of Southern rust-proof oats. Planted in early fall, it grows off quickly and has proven almost as hardy as rye. Stools out strongly and makes the best grazing for cattle, hogs, horses and mules during winter and early spring. Our Hundred-Bushel is the heaviest yielder of all, the best main-crop oat to plant in the South. It outyields Appler, is a sound seeder and you should plant it for your main crop.

With the renewed interest in growing fall grains, Hastings' Hundred-Bushel Oats stands out as the leader. It comes in mighty handy for feeding mules and horses during the summer, when corn runs low. Oats are far less heating than corn anyway and better grain feed for working stock. Planted as a fall grain, it provides a cover-crop to prevent washing away soil and fertility during winter and spring rains. It's a grand crop for practically every farm and this is the biggest cropping variety for you to plant. We grow the seed ourselves on the Hastings' Plantation, our finest selected strain, harvested and re-cleaned with the most modern machinery to take out weed seeds and light seeds, so every plant coming up is capable of vigorous growth and maximum yield. Write for our closest market prices when ready to buy. It will certainly pay you.

FULGHUM EARLY OATS

Excellent for light soils farther South. The best early oat with exceedingly heavy straw. A three-year test by one of the Southern Experiment Stations shows that it is eight days earlier than Hundred-Bushel, and the yield per acre was 8 to 10 bushels less than Hundred-Bushel Oats. Its greatest value is to prolong harvest season, where there is limited machinery equipment, and earlier harvesting allows your summer crop to be planted in time to make a heavy yield. Write for our closest market prices when ready to buy.

APPLER OATS

Appler is a genuine rust-proof strain and a good main crop oats to plant every year. It's a heavy yielder and stools out nicely for winter protection, so is very hardy. If convenient to thresh the crop, it furnishes a splendid combination grain and hay feed. Write for market prices when ready to buy.

ABRUZZI RYE

Southern Grown. We have grown Abruzzi Rye many years and do not hesitate to say that it is as far ahead of the old Southern Rye as the Southern is ahead of Northern Rye. Abruzzi is the best Rye for the South. It stools out quicker and heavier, quickly covering the ground and protecting its roots in winter. It can be pastured a month to six weeks earlier than other Rye or Oats. Write for prices when ready to buy.

WINTER BARLEY— The Wonder Crop

There is a great increase in barley planting, especially by stock raisers, who want it for winter green feed and grazing. Very easily grown through the South and sowed at last cotton or corn working, the only expense is the cost of seeds. All our Barley is re-cleaned and tested Southern grown winter barley. Broadcast 2 bushels per

Combining Seed Wheat, Hastings' Plantation

acre. Beardless and Bearded. Write for our best prices on quantity you want when ready to buy.

WHEAT for the South

(See New Sanford Wheat on Page 47)
Culture—Early fall planting is best. In early seeding, plant one bushel of seed per acre. After about November 15, it's better to use 1¼ to 1½ bushels per acre. Plant in drills, using the "open furrow" method, the same as for Oats. Easily grown in the South.

NEW CROP GASTA WHEAT

Improved Blue Stem. Newest and finest strain of Blue Stem, Beardless wheat, developed by the Georgia Experiment Station and being extensively planted now that it is so well known. It has proven a heavier seeder and with stronger stems than the old variety. It better resists storms, seems to be hardier and surely makes more grain per acre. We recommend it for fall seeding and our own re-cleaned special stock seed will give you heavier yields because of surer stands, deep rooting, heavy straw and with grains that are plump and heavy. Send your order early as we only have a limited quantity of seed to offer. Write for prices as early as possible.

BLUE STEM OR RED MAY

Purple Straw. The favorite among Southern wheat growers. It has been the almost generally satisfactory beardless variety. It's a fine, rather early, productive wheat. Write for prices when ready to buy.

5% CERESAN— PREVENTS SMUT

New Improved Ceresan—For treating grain seed to prevent bunt or smut. Costs less than 3c per bushel of seed. Lb. treats 30 bushels. Lb., 75c. 5 Lbs., \$3.25. 25 Lbs., \$14.00. 100 Lbs., \$53.00.

It's Not Easy to Have a *Beautiful* Southern *Lawn* . . . So Do the Job Right!

When to Plant

Our finest lawns are made during cool months. As soon as weather cools off until early spring is time to sow seed. Allow grass to become established without freezing weather if you can. Where there are trees, establish grass before or after leaves fall. Lawn grasses, except Bermuda, may be planted all fall and winter until late spring—the earlier the better. Bermuda Grass will start growth only in warm soil and weather. Plant it from May through August.

Prepare Soil Well

Spade or plow soil 12 in. deep. Remove rocks, roots and litter. Where shady there is frequently moss, showing acid condition. To correct this, apply 100 Lbs. Hydrated Lime per 1,000 square feet, and rake it in 2 or 3 weeks before planting seed.

Grass needs food and water. For soil to hold water and food, there must be plenty of humus or vegetable matter in the soil. For poor, sandy or heavy clay soils we must haul in woods earth or rich garden top-soil or we must add humus to the soil we have. Granulated Peat Moss and Peat Humus are the best and purest forms of humus.

Apply 100 Lbs. of Pulverized Sheep Manure, a bale of Peat Moss

or Humus, 50 Lbs. of Bone Meal and 50 Lbs. of lawn fertilizer to each 1,000 square feet (50x20 ft.) Rake thoroughly, mixing fertilizer with soil and working the surface smooth and level.

Seed Sowing

5 Lbs. of seed will plant 1,000 square ft. (50x20 ft.) of lawn with most grasses. Rye Grass takes 10 Lbs. Plant a plenty of seed to have a thick, velvety lawn. Sow seed carefully so not to skip spots. After broadcasting seed, roll the seeded surface with a roller, or firm the surface in some other convenient way. Grass seed needs only to be pressed into a firm seed bed—not covered with soil.

Bermuda Grass

The best summer grass in the South is Bermuda and it should be seeded in the summer in sunny places. Bermuda grass is brown in winter, so for a year-round green lawn with Bermuda, merely scratch Sheep Manure and Bone Meal into Bermuda sod in the fall or winter and broadcast Evergreen Mixture, Rye Grass or Kentucky Blue Grass over the closely mowed Bermuda sod, scratch it in with a sharp rake and roll it firmly and soak thoroughly. Green grass quickly appears and lasts until summer, when Bermuda crowds out the winter grass.

Hastings' Famous Southern Lawn Grasses Make Good

550 HASTINGS' EVERGREEN MIXTURE

LAWN GRASS MIXTURE—FOR UPPER SOUTH

Our finest, most satisfactory lawn grass for the upper South. It stays Evergreen the year round in properly prepared soil and watered thoroughly during the summer. It grows off quickly, has a rich green color, fine texture, is slightly creeping, smooth and velvety. It really makes a luxuriant green carpet and years of experience have proven this, our own formula blend, to be the best of all mixtures for the South.

In the lower South, it makes the finest textured fall, winter and spring lawn. It is the best also to plant on Bermuda sod each fall for winter grass. Our own special formula mixture. You can get it only direct from Hastings'. Lb., 40c. 5 Lbs., \$1.75. 10 Lbs., \$3.25. Postpaid.

555 HASTINGS' SHADY LAWN GRASS

UPPER SOUTH MIXTURE—For shady places in the upper half of the cotton belt and farther north. It makes a wonderful winter and spring grass carpet and stands hot, dry summers in shady places better than other grasses. This is our famous Evergreen Mixture with the addition of Fescue and Creeping Bent Grasses, the best grasses known for shady places. Lb., 45c. 5 Lbs., \$2.00. 10 Lbs., \$3.75. Postpaid.

ALL PRICES QUOTED ON THIS PAGE ARE POSTPAID.

Write for larger quantity prices.

530 BERMUDA (Unhulled). Sow April-Aug. Slow to start. South's standard permanent summer grass. Lb., 40c. 5 Lbs., \$1.75.

546 TIMOTHY. For upper South and North. Lb., 25c.

545 RED TOP. Slightly creeping; best on stiff, moist land. Sow 15 Lbs. per acre for pasture. Lb., 35c. 5 Lbs., \$1.40. 10 Lbs., \$2.70. Postpaid.

538 MEADOW FESCUE. Sow 35 Lbs. per acre, except on soggy land for hay and pasture. Lb., 35c. 5 Lbs., \$1.40.

542 ORCHARD. Sow 45 Lbs. per acre for hay or pasture. Even grows under trees. Lb., 45c. 5 Lbs., \$2.00.

551 PERMANENT PASTURE MIXTURE. For the upper South. Sow 35 Lbs. per acre. Our own formula from years of practical experience. No Bermuda or Johnson Grass. Write for complete description and culture and quantity prices. Lb., 35c. 5 Lbs., \$1.40.

533 KENTUCKY BLUE GRASS. Best rich green lawn and sweetest pasture grass for upper South and North. Slightly spreading, narrow leaves. Evergreen if kept moist in summer. Fancy re-cleaned seed for finest lawns. Lb., 45c. 5 Lbs., \$2.00. Write for lowest quantity prices.

535 CHEWINGS' FESCUE. A superb grass for acid soils or shaded locations where it is difficult for other types to grow. Best on good soil, however. Lb., 65c.

553 CARPET GRASS. Valuable for lawns and pasture in most sections of the South. Thrives with plenty of moisture even on poor soils, in sun or shade. Lb., 40c. 5 Lbs., \$1.75.

531 HASTINGS' HULLED BERMUDA

(Extra Fancy Grade)

THE SOUTH'S GREATEST PERMANENT GRASS

For Lawns and Pasture. Most valuable grass for the South. Bermuda stands drought and scorching summer sun better than any other variety, has a creeping, spreading habit, stands roughest use and is indispensable for sunny locations.

Hastings' Hulled Bermuda seed sprouts in 2 weeks if soil is moist, almost as quickly as Rye Grass. This is our famous Bermuda with the almost water-tight hulls removed, previously believed impossible. It is revolutionizing Bermuda lawn planting with its quick, sure results. Sow 3 Lbs. to each 1,000 sq. ft. of lawn. Use 10-20 Lbs. per acre for pasture. Bermuda will not germinate in cool soil. Postpaid—Lb., 60c. 5 Lbs., \$2.75.

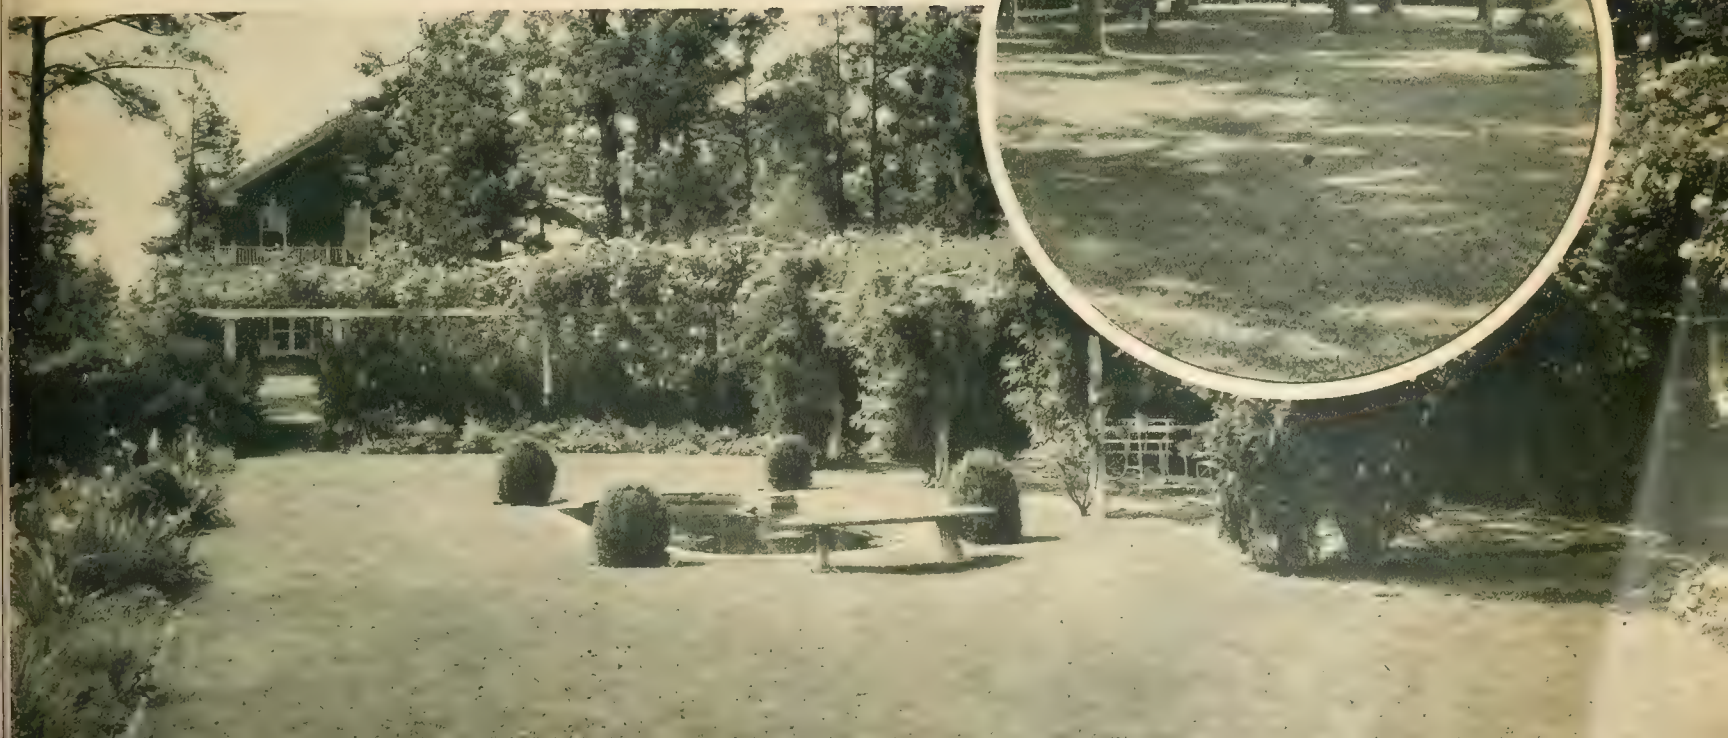

532 HASTINGS' WINTER RYE GRASS

AMERICAN GROWN. The Winter Grass for all the South. Scratch seed in Bermuda sod each fall for a year-round green lawn. It lasts until the Bermuda comes out again in summer. By itself it makes a delightful green lawn, in sun or shade, all fall, winter and spring. It stands repeated mowing. Sow 10 Lbs. per 1000 sq. ft. (50x20 ft.) for lawn; 50 Lbs. per acre for pasture to graze all winter and spring.

Hastings' Fancy Seed—Lb., 25c. 5 Lbs., 85c. 10 Lbs., \$1.50. Postpaid. Write for larger quantity prices when ready to buy.

555 Shady Lawn Grass

531 Hastings' Extra Fancy Grade Hulled Bermuda Grass

Flower Seeds for Late Summer

Remember in ordering—Hastings' Seeds are the finest that money can buy. Our variety strains are the best adapted for growing in the South. You can obtain these Southern adapted seeds best, directly from Hastings. It pays you in garden beauty or profit to order direct—the simplest, easiest, cheapest way to get the best seeds. We are as near and convenient as your mail-box.

TA stands for Tender Annual, quickly growing and flowering from seeds, but not frost hardy. HHA—Half-Hardy Annual, starts slower but doesn't stand killing freezes. HA—Hardy Annual, stands considerable cold, many starting from winter sown seeds. TP—Tender Perennial, flowers more slowly from seed, not frost hardy. HP—Hardy Perennial, winter hardy, grows more than one year outdoors. July to Sept. sown Perennials usually bloom the following season in greatest abundance. Order now for an early start!

6285 California Poppy

6590 Gerbera

FRESH PANSY SEED

CULTURE—Prepare bed deeply and well. Soil with leaf mold, peat moss and decayed cow manure gives best results. Seeds germinate in about 10 days and must not dry out during this period; coating with peat moss over the bed prevents drying out. Thin out or transplant to six inches apart in rows and cultivate frequently. During dry weather, water bed daily. July to September, January to March are the best times to plant, allowing plants to develop in vigorous condition. They need only light protection to stand our winters.

8060 FRENCH MIXED. Our mixture of a large assortment of the better common varieties. This contains a wide range of colors. Pkt., 10c. 1/4 Oz., 60c. Oz., \$2.00.

Super Giant Collection \$1.00

SPECIAL—One Packet Each of Hastings' Exhibition Mixed, and the finest new Swiss Giants—Alpenglow, Lake of Thun, Coronation Gold and Swiss White—\$1.65 worth of the greatest Pansies in existence, for just \$1.00. Now is the time to plant! Start seed early.

Hastings' Special Exhibition Mixed Pansies

8090—Largest and finest exhibition strain. They are specially selected for the widest range of rich and glorious colors and brightest shades of all pansies. Flowers are enormous, petals rounded, five-blotched and with gold substance. Plants are dwarf and compact, with long stems above foliage. They are long continuous bloomers and hold their large size exceptionally well over a long season. Pkt., 25c. 1/16 Oz., 60c. 1/4 Oz., \$2.00. Oz., \$7.50.

8070 TRIMARDEAU MIXED—Extra choice. Brilliant Mixture the best Trimardeau Giants. Pkt., 15c. 1/4 Oz., 75c. Oz., \$2.50.

8085 MAPLE LEAF GIANTS. Well known giant pansies with extra long stems. Pkt., 35c. 1/8 Oz., \$1.25. Oz., \$7.75.

Newest Dwarf Roggli Giants

8080 DWARF ROGGLI SWISS GIANTS 1933 All-America. Gigantic size, perfectly round, wonderful substance. Improved Swiss Giants selected to dwarf, compact plants which do not become leggy. The best type of largest flowering pansies. Mixed. Pkt., 35c. 1/16 Oz., 70c. 1/4 Oz., \$2.25. Oz., \$8.00.

8082 ALPENGLOW. (Roggli). Richest red.
8084 LAKE OF THUN. (Roggli). Ulls-water blue. Huge deep blue, darker blotches.

8088 SWISS WHITE. (Roggli). New pure white.

8073 CORONATION GOLD. (Roggli). Award of Merit. 1938. Canary yellow, flushed orange; round, lightly ruffled scented, big flowers.

Each named Roggli—Pkt., 35c. 1/16 Oz., 70c. 1/4 Oz., \$2.25. Oz., \$8.00.

8180 FORMULA MIXED. Solid colors. Balanced formula mixture of good varieties without the most costly. Pkt., 10c. 1/2 Oz., 30c. Oz., 50c.

Hardy Annual Phlox Drummondii

Extremely Popular All Over the South. Plants are hardy bushy annuals, growing 1 ft. high and particularly attractive in masses and ribbon beds of striking or contrasting colors. Our mixtures contain the whole rainbow of colors, many with variations of stripes, eyes and veins. Probably no other flower produces such a wonderful range of colors and such a continuous supply of attractive flowers. Reseeds easily.

CULTURE. Annual Phlox grow on most any type of soil, quickly giving a mass of beautiful bloom. If seed pods are removed, they continue to flower until killing frosts. They are useful for boxes and make splendid cut-flowers. Broadcast seed as soil can be worked, cover 1/4 in. and firm soil. Thin to 4 in. apart. A sunny position is desirable. May be started early indoors or outside in fall for earliest flowers.

8261 NEW GIANT ART SHADES

 Award of Merit, 1935 All-America. Enormous new strain with large florets and a wonderful range of color in soft art

Hastings' New Giant Dixie Sweet Peas for 1941-42

Experts' opinions declare that these varieties are the very best of each color in existence. When a better one in any color shade is created, out goes the older one. You expect the best from Hastings and here they are for the new 1941-42 season. For largest flowers start early in good soil worked deep. Planting in double rows, about 8 inches apart, conserves wire supports. Directions are on packets. Ounce plants 50 ft. of single row.

Early Flowering Sweet Peas

Especially for greenhouse culture and outdoor fall planting in the lower South. They bloom earlier than regular Spencer Sweet Peas and almost as freely. Best for growing in Florida where late Giant Spencers fail to bloom. Prices Below.

9200 HASTINGS' EARLY FLOWERING CHOICE MIXED SWEET PEAS. FLORISTS' STRAINS. Pkt., 10c. Oz., 20c. 1/4 Lb., 60c. Lb., \$2.00. 5 Lbs., \$8.00.

Early Flowering Sweet Pea Collection Offer—50c

As suggested in pictures above. Same colors, in six Early Flowering varieties—One packet each of Florist Blue, Grenadier Cascade, Memory, Shirley Temple and Ball's Orange. Finest color assortment, finest of all early Sweet Peas, best for fall and winter planting in Florida, the lower South and for greenhouse culture everywhere.

Special—90c worth—for only 50c

1 full ounce each (\$2.40 value) for \$1.65.

9206 FLORISTS' BLUE. Clear blue. Delightful effect and best of newest blues.

9212 GRENADIER. Fiery Scarlet. New striking beauty; large wavy petals.

9214 CASCADE. White. Sensational new white, now so fashionable.

9216 MEMORY. Lavender. Glorious giant flowers for all purposes; extra choice.

9226 SHIRLEY TEMPLE. Soft rose-pink. Daintily frilled; considered finest of all new sensational varieties.

9235 BALL'S ORANGE. Large clear deep glowing orange flowers. Fine stems.

Price Each—Packet, 15c. Oz. 40c. 1/4 Lb., \$1.20. Lb., \$4.00.

SPRING FLOWERING SWEET PEAS. Hardy new type maturing between Early and Late Spencers.

9180 BLUE. 9185 LAVENDER. 9190 ROSE. Each—Pkt., 15c. Try these to lengthen the blooming season next spring. All 1940 All-American winners.

9240 HASTINGS' MIXED GIANT SPENCER SWEET PEAS

All Prices Are Postpaid to You.

SPECIAL 1941 BULB NOTICE!

• Of course no bulbs can be expected this year from Holland of Tulips, Hyacinths, Crocus, Scillas, Chionodoxas, etc., and we are omitting them again from our listings as we did last year.

• We recommend that you concentrate your bulb plantings, using Daffodils, bulbous Iris, Lilies, Amaryllis and the other American grown bulbs which naturally are longer lived and come back year after year, growing more beautiful each season. In so doing you are making a permanent garden investment and are patronizing home growers at the same time!

• If there is a possibility of some English grown tulips coming through the submarine infested Atlantic we will have a very limited supply and possibly a few small but good American grown tulips. Please write us about October 1st and we will advise definitely.

• Meanwhile our suggestion is that you send your order now for the choice American grown bulbs offered on these pages because we sold out long before the season was over last year and had to disappoint a great many of our customers.

WHITE. Aethiopica. Pure white, largest, most satisfactory "Lily of the Nile." Delivery after September 15th. Each variety, 25c. 3 for 65c. 6 for \$1.20. 12 for \$2.25.

Lovely Freesias to Grow in Winter

Sweetest flower that grows, yet its perfume is always delicate and refreshing. It's best to start your bulbs in August or as early as possible. Start 6 to 25 bulbs in a large shallow pot of loamy soil. Keep outdoors until cold weather and water regularly. Then place in a sunny window in a cool room for best blooming. Support growth with plant stakes.

PURITY WHITE. Most popular, purest and largest white. Big ¾ in. bulbs for earliest, biggest flowers. 6 for 25c. 12 for 45c. 25 for 85c. 100 for \$2.65.

To Grow in Your Indoor Winter Garden

Paper White Narcissus

Easiest grown, most popular of all bulbs. For outdoors in the lower South, winter pot or water culture in the house everywhere. Large panicles of pure white, fragrant flowers. Our big bulbs bloom uniformly if not started too early, Oct.-Nov. or later. Start bulbs every couple weeks for indoor blooms from Christmas to Easter. Bulbs—6 for 25c. 12 for 45c. 25 for 75c. 100 for \$2.75. Postpaid.

Chinese Sacred Lily

Flower of the Gods or Water Fairy of Celestials. A luxuriant growing narcissus of silvery white with eyes or cups of golden yellow. Extremely sweet-scented; free flowering in large panicles on strong stems. Grand in pots or bowls of water similar to Paper Whites. Mammoth Bulbs—3 for 35c. 6 for 60c. 12 for \$1.10. Postpaid.

Grand Soliel D'Or Narcissus

Bright yellow, fragrant form of Paper White Narcissus, with rich orange eyes. Large panicles of flowers. Mammoth Bulbs—3 for 30c. 6 for 50c. 12 for 95c.

Exotic Calla Lilies

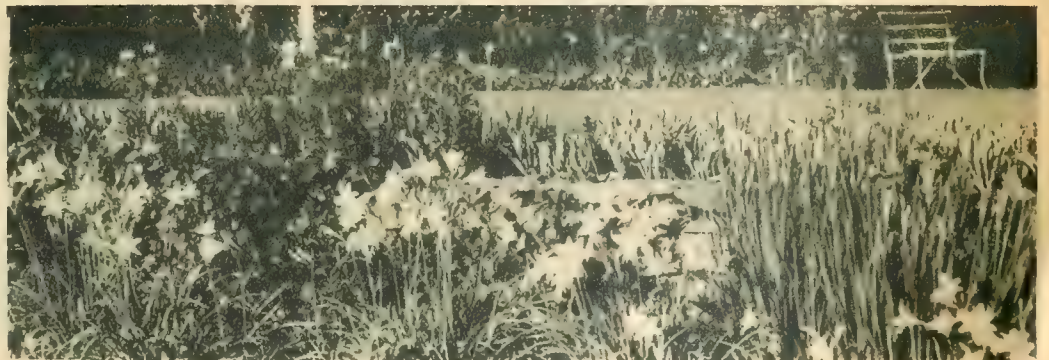

For Indoors or Outdoors

Most beautiful cornucopia shaped, chaste flowers. Most artistic of all big tropical leaves and easily grown. May be planted outdoors in the lower South, but plant in pots for indoor winter blooms everywhere; one bulb to each 5 or 6 in. pot. Give rich soil, place in dark until well started; then give plenty of moisture, warmth and light.

GOLDEN DAFFODIL. Earliest and best. Extra large and intense yellow. 12 for 30c. 25 for 55c. 100 for \$2.00.

APOTHEOSE. Very large exquisite lavender. 6 for 20c. 12 for 35c. 25 for 65c. 100 for \$2.25.

PENSOROSA. Giant pink. 6 for 30c. 12 for 55c. 25 for 95c. 100 for \$3.65.

Perennial Border of Hemerocallis and Siberian Iris

PEONIES . . . to Grow in the South

Festiva Maxima, Supreme in the South

Magnificent Peonies are being very successfully grown in most all sections of the South except in Florida and in the light, sandy soils of the Atlantic and Gulf coastal regions. Try them in your garden. Plant Peonies in fairly rich but well drained soils with exposure to only the early morning sun in the deeper South. Set roots barely under soil surface. Feed with bone meal. Never use manure except Wizard Sheep Manure which has been heat treated.

ALBATRE. White. Magnificent rose form fragrant white flower with carmine pencillings on center petals. 40c.

***ALEXANDER DUMAS.** 7.1. Pink. Early brilliant pink, interspersed with salmon, white and chamois. Excellent bloomer. 40c.

***EDULIS SUPERBA.** 7.6. Pink. Extra early, crown type old rose pink. Best pink for the South. 40c.

***EXQUISITE FIRST** (Japanese). Large flowers, cupped white guard petals enclosing sulphur yellow center changing to white. 75c.

***FELIX CROUSSE.** 8.4. Red. Bomb type clear brilliant red. Prominent guard petals. Strong grower. 40c.

***FESTIVA MAXIMA.** 9.3. White. Paper white, crimson center markings. Very large and best Southern variety. 40c.

FLORAL TREASURE. Pink. A rose type flower of delicate salmon-pink. Try this beauty in your garden. 40c.

GOLD MINE (Japanese) ROSE. Tyrian rose petals with golden stamens. 75c.

***JEANNE D'ARC. PINK.** Soft pink suffused sulphur, white, and rose. Carmine spotted center. 40c.

***KARL ROSENFELD.** 8.8. Red. Pure, rich, intense crimson of half rose type. Superb substance. 40c.

KELWAY'S QUEEN. 8.8. Flesh Pink. A real aristocrat of fragrant flesh pink and a profuse bloomer. \$1.50. 3 for \$3.75.

***LA PERLE.** Rose. Large, compact rose type. Soft violet rose center, outer petals lilac white. 40c.

LORD KITCHENER RED. Bomb type flowers of cherry red. Midseason. 75c.

MADAM CROUSSE. White. Uniform clear white occasionally flecked crimson. Globular crown type. 40c.

MADLINE GAUTHIER (Japanese) Silver Pink. Exquisite flowers of silvery flesh pink surrounding golden stamens. 75c.

MARIE JACQUIN. 8.3. White. The water lily Peony! Semi-double cup shaped flowers in great profusion. 40c.

***MONS. JULES ELIE** 9.2. Pink. Early bomb type. King of all peonies. Lilac pink with silver sheen. 40c.

***PHILOMELE.** 7.7. Anemone type. Guard petals of rose surrounding golden yellow anemone center. Fragrant. 40c.

***PRESIDENT ROOSEVELT.** 7.7. Red. Semi-rose type of rich, deep, brilliant red. A grand peony. 40c.

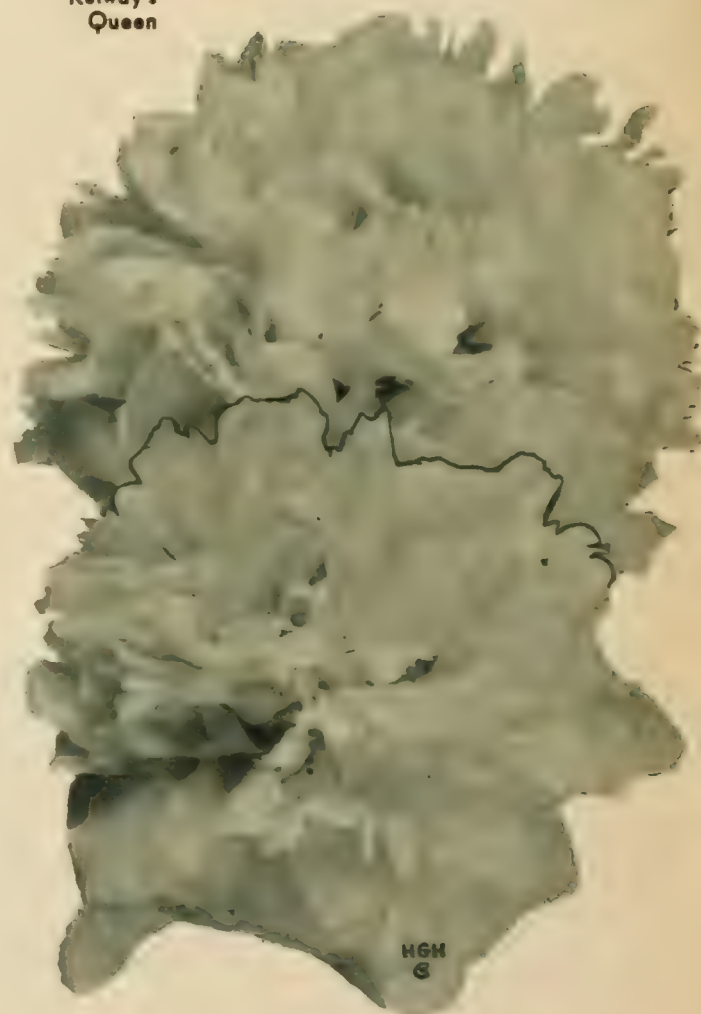

***SARAH BERNHARDT.** 9.0. Pink. Semi-rose type of apple blossom pink, each petal tipped silver. 40c.

PRICES: 40c varieties—3 for \$1.00. 12 for \$3.50. Postpaid.

75c varieties—3 for \$2.00. 12 for \$7.50. Postpaid.

***SPECIAL COLLECTION OFFER:** One each of 12 varieties marked with * Postpaid for \$2.95. One each of any six marked with * for \$1.65 postpaid. All other varieties only at regular prices above.

Most Beautiful IRIS

for the South!

**Lovely New Hardy Japanese Sensations
for a Permanent Investment**

No Southern Garden Should Be Without Them

These varieties listed below represent some of the choicest for Southern soils and climate and will thrive in almost any fairly rich soil in all Southern states. They need only a moderate supply of moisture and a reasonably rich soil and will thrive in sun or partial shade. Morning sun only is best in the far South including Florida. A planting once established can be considered a permanent addition to your garden. Book your order promptly for early shipments for best results and blooms next spring. Plants ready about October 20.

ASTARTE. Dark Violet. Enormous double
flowers often 10 inches across. Prolific.

BETTY F. HOLMES. Extra large double
pure white with lemon yellow midrib. Choice
foliage.

BLUE DANUBE. Double to triple petals of
real deep uniform blue on tall stems.

BLUE WAVES. Large, lovely wisteria blue
with striping gold center.

ETHEL J. MARSHALL. Striking milk white
falls faintly flushed violet, drooping. Stan-
dards contrasting deep violet.

GOLD BOUND. White and gold. Double
white flowers enriched by gold.

HERCULE. Lilac blue. Immense 6 petaled
double flowers of clear lilac blue.

KAGARIBE. Huge flowers of Chinese red
with yellow spot on each petal.

KUMO NO OBI. Magnificent massive dou-
ble bluish violet, more intense to center
with spots of yellow and white.

LA FAVORITE. Double, large fine white,
freely veined blue, and a rich purple center.

LILLA COX. Double petunia violet with
bluish cast at center. Orange spot on each
petal. White veins.

LUCIA MARSHALL. Large double pansy
violet with white veins. Center white with
yellow spots.

Lovely White Japanese Iris

MAHOGANY. Mahogany-red. Large vel-
vet toned, late blooming garden favorite.
Petals crested.

MARGARET S. HENDRICKSON. Large
wavy petals of triple powder blue. White
center with blue cast.

Hardy Siberian Iris

**Iris Japonica
Hercule**

MARJORIE PARRY. Extra choice double
soft mauve with tufted center.

MELPOMENE. Semi-double red with heavy
white veins. Stigmas cream edged violet
rose.

REPSIME. Giant double flowers varying in
color from white to blue and violet blends.

ROSE ANNA. White. Double ivory white
flowers with ruby red veins, blotched yellow.
Gorgeous.

SEACREST. Six petals, large and wavy,
frost white with deep blue shaft. Glisten-
ing!

VIOLET RAY. An unusually fine six-petaled
violet red flowered variety.

WILLIAM TELL. Six large petals with a
combination of cream white with lilac.

WISTER'S FAVORITE. Quite large semi-
double light blue. Excellent form.

YURUSHI NO IRO. Early and outstanding-
ly handsome double rich red with velvety
purple bar at each petal center.

Hastings' Siberian Iris

They bloom early in the garden and like
moist places best. Most prolific Iris.

KINGFISHER BLUE—Bright blue. 3 ft.
Flowers excellent for cutting and showy in
the garden. 25c each. 3 for 60c. 12 for \$2.

MRS. ROWE—Silvery white. 3 ft. Makes
a bright show in the garden and splendid
for cutting. Easily grown, striking white
flowers. 25c each. 3 for 60c. 12 for \$2.00.

IRIS PSEUDACORUS—Yellow species.
25c each. 3 for 60c. 12 for \$2.00.

Hardy Ochroleuca Iris

For Superb Cut Flowers

These are exceptionally hardy varieties that
grow easily in rather heavy, moist soil. We
suggest morning sun exposure here in the
South although they have been grown in
California with ease.

Yellow Ochroleuca Iris

White Ochroleuca Iris

Cream Ochroleuca Iris

Prices: 60c each. 3 for \$1.50. 6 for \$2.75.

Hastings' Southern Lawn Grass

Hastings' Evergreen Lawn Mixture

Finest mixture for permanent lawns in the upper South. Fully described on page 29. Lb., 40c. 5 Lbs., \$1.75. 10 Lbs., \$3.25. Postpaid.

Hastings' Shady Lawn Grass Mixture

For shaded areas in the upper South for permanent lawns. (See p. 29). Lb., 45c. 5 Lbs., \$2.00. 10 Lbs., \$3.75. Postpaid.

Hastings' New Hulled Bermuda Grass

The most satisfactory and lasting grass of all for sunny lawns everywhere in the South. New hulled seed germinates in 10 days or less. Sow in summer. Use only 2 lbs. per 1000 square feet. Special postpaid prices. Lb., 60c. 5 Lbs., \$2.75. Plant only when soil is warm. Now is the time!

Large, full heads of new Sanford Rust-Resistant Wheat grown on Georgia Experiment Farm, 1940

The following information has been released by Dr. H. P. Stuckey and Dr. R. P. Bledsoe of the Georgia Experiment Station under whose direction the variety was originated:

SANFORD WHEAT. A new variety of wheat resistant to leaf rust and adapted to Georgia conditions is now ready for distribution to Georgia farmers. Four-year trials of this wheat have yielded 6.4 bushels more per acre than Gasta (a high-yielding Bluestem selection). Sanford is similar to Bluestem (Purplestraw), except for having somewhat more awns and greater resistance to leaf rust. In years in which leaf rust is prevalent, Sanford matures a few days later than Bluestem, due to its superior resistance to leaf rust.

Table 1. Yields of Sanford Wheat Compare with Gasta 1935-1939

Variety	Yield per Acre					4-Year Average
	1935	1936	1937	1938	1939	
	bu.	bu.	bu.	bu.	bu.	bu.
Sanford -----	25.0	28.4	29.8 ^a	12.2 ^b	41.0	26.7
Gasta -----	15.8	24.3	14.1 ^a	9.0 ^b	32.1	20.3
Difference -----	+9.2	+4.1	+15.7 ^a	+3.2 ^b	+8.9	+6.4

^a Wheat damaged by aphids in 1937 which may have influenced results. Results for 1937 therefore omitted from average.

^b Wheat badly damaged by hail.

The yields given in Table 1 were made on soil of fair to average fertility, fertilized with 150 pounds of nitrate of soda. Except in 1937 when the crop was damaged by hail, Sanford has made from 25 to 41 bushels per acre. Similar yields have been obtained from increased fields of this wheat for the past two years.

Due to an error in labeling, the exact parentage of Sanford is not known. One parent was certainly Purplestraw and the rust resistant parent either Kanred or one of two other similar Kansas wheats (PI068 or PI066). This hybrid was selected for resistance to leaf rust and the best selection was backcrossed to Purplestraw. It was necessary to make backcrosses to Purplestraw to improve yield and straw characters, before a desirable type of wheat, resistant to leaf rust, was produced.

Sanford wheat is resistant but not immune to leaf rust. So far, we have found little rust on Sanford up to ten days before harvest, even when it was grown next to susceptible varieties like Purplestraw. Some years Sanford will have considerable rust just before ripening. As early rust does more damage, this late rust is not considered serious.

As far as is known, Sanford is not resistant to other diseases of wheat, such as smut and stem rust. As a general rule, these diseases are not serious under Georgia conditions.

The winter growth, heading date, color of straw, and a number of other morphological characters are very similar to Purplestraw. The heads have a few more and longer apical awns than Purplestraw. There is an occasional bearded head, which appears to be a throw-back to the bearded parent. The kernels are slightly longer and the ripening date slightly later than Purplestraw.

Sanford wheat is the result of a cooperative project between the

You Can Increase Your Wheat Yield 30% or More by Planting the Superb New . . .

SANFORD Rust-Resistant WHEAT in 1941

Georgia Experiment Station and the Division of Cereal Investigations and Diseases of the United States Department of Agriculture.

Sanford wheat has been named for Chancellor S. V. Sanford of the University System of Georgia—a worthy recognition.

PRICES OF NEW SANFORD WHEAT

Only a limited supply of our stock seed available, so book your order immediately before supplies are sold out. All quotations are f. o. b. Atlanta—no extra charge for bags.

1 Bushel, \$2.00.

2 to 24 Bushels at \$1.90 per bu.

24 or more Bushels at \$1.75 per bu.

FIELD SEED PRICES FOR CLEANED SEED

Our latest quantity price list is included with this catalog, but if it should be misplaced we will gladly mail you another upon request. Of course market changes occur from time to time during the active season so we will make firm quotations at such time that you may desire.

Hastings' cleaning machinery is modern, efficient and thorough. We believe that our seeds, so well processed, are worth more money to you because they give you better stands and with less trash.

Plant 25% less per acre with Hastings' seed grains and save the difference in time and money.

Remember, too, that a bushel of Hastings' super cleaned oats or wheat or other grains is equal frequently to 2 bushels of ordinary stock, little cleaned or not cleaned at all.

Cleaned seed avoids waste of time and land and therefore money. Clean seed is the most inexpensive seed you can plant.

Treat all winter grains with New Improved (5%) Ceresan. Pound treats 30 bushels. Lb., 75c. 5 Lbs., \$3.25. 25 Lbs., \$14.00. 100 Lbs., \$53.00.
